SERIES 2

ANDHRA PRADESH

DISTRICT CENSUS HANDBOOK

KRISHNA

PARTS XIII-A & B

VILLAGE & TOWN DIRECTORY

VILLAGE & TOWNWISE PRIMARY CENSUS ABSTRACT

S. S. JAYA RAO

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in the local area planning but in the regulating of the provision of goods and services as well as in minimising the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Information on adult literacy centres, primary health subcentres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in Statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Section I & II of the volume contains village and town directory and Section III, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Taluk/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and taluk/town level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. S. Jaya Rao, I.A.S., Director of Census Operations; Andhra Pradesh, Hyderabad, on behalf of the State Government which has borne the cost of printing. The task of planning, designing and coordination of this publication was carried out by Shri N.G. Nag, Deputy Registrar General (Social Studies) of my office, Dr. B.K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the head-quarters under the guidance of Shri M.M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi
the 26th April, 1982

P. PADMANABHA
Registrar General, India

P R E F A C E

The District Census Handbook, a valuable publication containing census information has become a constant guide in the fields of planning and administration right from the village to State level, besides serving the needs of academicians and researchers. This publication provides Primary Census Abstract data upto grass root level for both rural and urban areas. It also provides data on infrastructure and amenities available in villages and towns.

Sri P. Padmanabha, IAS, Registrar General, India, in his foreword has succinctly explained the scope and contents of District Census Handbook from 1951 to 1981. A review of this publication for the last three decades reveals tremendous improvement in the presentation of data. The District Census Handbook of 1981 Census comprises of two parts – Part A— detailed analytical note supported by a number of inset tables based on census and non-census data in relation to infrastructure and Part B – Village and Town directory as well as Primary Census Abstract of villages and towns, and these two parts are composed in a single volume. An attempt has been made to provide exhaustive data on infrastructure aspects to meet the Minimum Needs Programme of the Planning Commission. Certain new features like, location of adult literacy centre, availability of the services of community health worker and method of approach to village, in the village directory format and certain additional features like access to adult literacy programme, existence of working women's hostel and presentation of data on civic amenities on notified towns by size class of town in town directory, are sequel to the Minimum Needs Programme.

Analytical notes have been incorporated, explaining the history of the district with changes, if any, of the district or of the taluk or of the villages between 1971–81, besides the census concepts, codes used in various statements and places of tourist interest. District and Taluk maps which are prepared in this office on the basis of maps certified by the competent authorities also have been incorporated. In the district map, just to avoid over crowding, the villages having more than 5,000 population alone have been shown by names. For the rest, one has to refer to the alphabetical list of villages of each taluk, presented in Part B of this publication.

This publication is a joint venture of both Central and State Governments. The processing including compilation, tabulation and finalisation of the write up, is done in the Office of the Director of Census Operations, while the cost of the paper and printing required for this publication is being borne by the State Government. The Andhra Pradesh State Government have readily agreed to bear the cost of publication for 1981 District Census Handbooks. I am grateful to the A. P. State Government and in particular to the Chief Secretary, Sri S. R. Rama Murthy, IAS, for his co-operation and encouragement. I am thankful to the Director of Printing, Government of Andhra Pradesh for selecting good private presses to print these Handbooks. The data presented in the village and town directories are obtained from the State and Central Government departments, but for whose co-operation, Part A and B of the Handbooks could not have been compiled. I am thankful to all those departments which have provided the data required.

I am extremely grateful to Sri P. Padmanabha, IAS., Registrar General and Census Commissioner for India and Sri N. G. Nag, Deputy Registrar General for formulating the contents of the Handbook in detail. I have also been considerably assisted by Dr. B. K. Roy, Deputy Registrar General (Map) and Sri M. M. Dua, Senior Research Officer (S.S.).

The arduous task of collection, compilation, scrutiny and preparation of analytical note of this volume laid heavy burden on the staff of the District Census Handbook section. The credit goes chiefly to Sri B. Satyanarayana who worked as Assistant Director as well as Deputy Director of Census Operations

while handling this subject. He took great pains to tour the districts, contact various officers of the district and culled out information from various sources. Sri Y. G. Krishna Murthy, Deputy Director of Census Operations and Sri A. C. Reddy, Assistant Director of Census Operations of my office have also involved themselves in the processing of this most important census publication programme. Shri Shyam Deo, Research Officer ably guided the preparation of the maps included in this publication.

The following officials of my office worked on the present volume of Krishna District Census Handbook.

Smt. P. Lalitha, Investigator	}	Drafting and Scrutiny and Supervision of Printing
Sri N. C. Hanumantha Reddy, Tabulation Officer		
Smt. P. A. M. Tayar, Tabulation Officer		
Sri T. B. Ramchander, Statistical Assistant	}	Supervision of Printing
Sri M. Narsing Rao, Statistical Assistant		
Sri G. K. Yadagiri, Statistical Assistant	}	Collection, Compilation, Scrutiny of maps and proof reading

Sri Md. Khaja Moinuddin, L.D.C.
Sri Md. Ismail, L.D.C.

} Preparation of fair copies

I am thankful to their services.

My endeavour has been to present data concerning each district as detailed as possible and I hope this volume will prove useful for all data users.

S. S. JAYA RAO
Director of Census Operations

CONTENTS

		Pages
Part-A		
1	Important statistics of the district	viii-ix
2	Map of the district	Facing Page [i]
3	Analytical note	
	(i) Brief history of the district	[1-5]
	(ii) General, physical aspects, hills, rivers, flora, fauna, climate, rainfall, soils, history of district as an administrative unit and changes in its component parts in general and during the decade in particular ...	[6-18]
	(iii) Major characteristics of the district particularly in relation to the economic resources namely forestry, minerals and mining, electricity and power, land and land-use pattern, tenancy, agriculture, animal husbandry, fishery, industry, trade and commerce, transport, etc. ...	[19-20]
	(iv) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district ...	[21-23]
	(v) Census concepts of rural and urban areas and other terms namely census house, household, scheduled castes/scheduled tribes, literates, main worker, marginal worker, non-worker, etc. ...	[24-26]
	(vi) The history of district census handbook, scope of village directory, town directory statements and PCA ...	[27-38]
	(vii) Brief analysis of the village and town directory, PCA data based on inset tables and a note on physically handicapped persons ...	[39-59]
Part-B Village and Town Directory and Primary Census Abstract		
SECTION I - VILLAGE DIRECTORY		
	(i) Note explaining the codes used in the Village Directory	1-2
	(ii) Village Directory with Taluk Map on facing page of alphabetical list	
	1 Jaggayyapet Taluk	3-9
	2 Nandigama Taluk	11-19

PART A
ANALYTICAL NOTE

KRISHNA DISTRICT

HISTORY

The earliest rulers of the district known to History were the Andhra Kings or the Satavahanas styled as Buddhist Kings. Simuka was the first king reputed as the founder of the great Satavahana dynasty. With his conquest of the Deccan (Kalinga) in 260 B.C. the great Ashoka Maurya claims to have subdued the Andhra Kings. However, his conquest of the Andhra Kings by no means terminated their existence as Simuka was contented with semi-independent status. Even Kanha the successor of Simuka continued to rule as his predecessor had done. But at this time the Magadha Empire was tottering to its fall owing to its vastness and for want of an able ruler after Ashoka. As such internal dissensions cropped up besides the external invasions. In such a situation of political confusion and chaos, Gautamiputra Satakarni ascended to the throne and was considered as the greatest of the Satavahanas and champion of Andhras as he protected their interests by destroying the Sakas, Yavanas and the Pallavas of Malwa, Gujarath and Kathiawar respectively. He soon proposed an alliance with the powerful Amgiya family in the west and married Naganika in order to make his empire safe from further incursions in the west and thereby restored glory to the Satavahana family. The Satavahanas subsequently ruled over a wide empire gradually extending their political sway from the Krishna delta towards Nasik. Even the inscriptions at Amaravati and Dharanikota, besides the coins which have been found in the Andhra regions, indicate their greatness. But the last rulers of the Satavahana dynasty were weaklings and their rule was of little significance.

The rise of the Chutus in the western and southern districts of the Abhiras in the Nasik area, and of the Ikshvakus in the east and the relentless pressure of the Sakas of Ujjain sounded the knell of the Satavahana Empire. This too went the way of all empires through valour, greatness, discord, degeneracy and decay. But while it lasted for more than four centuries and a half, it imparted more stability and security to the life of the people, the inhabitants of regions of the Deccan, than any other Indian power had ever done. Many empires had come and gone, the Mauryas, Sungas and Kanvas in Magadha, the Chetis in Kalinga and the Bactrians, Sakas and Pallavas in north and

north-western India. Yet the Satavahanas ruled on, strong in will and stronger in action and before they fell, made weak by time and fate, they had already saved the Deccan from the aliens for more than three centuries.

The next rulers to appear on the scene were the earliest Pallavas and we read about Mukkanti Pallava as the King of Dharanikota which immediately adjoins Amaravati. The Pallavas (250-340 A.D.) consequent on the decline of Satavahana rulers, were the direct inheritors of parts of the Andhra Empire which stretched from the Krishna to the Tungabhadra and included Amaravati in the east, Bellary in the west and Kanchipuram (Conjeevaram) in the south. They were originally officers and governors of the south-eastern portion of the Satavahana Empire, who later became independent and extended their power southwards. The Pallavas were also known as the Andhra feudatories who rose into prominence and conquered Kanchi region. The copper plate grants at Mydavolu (Guntur District) represent Sivaskandavarman as the maker of the Pallava greatness and as a great conqueror. Indeed he ought to have been the ablest of the early Pallavas and assumed the title of Dharmamaharaja and performed the Asvamedha sacrifice. The Pallava chieftains had two of their capitals at Venginagar near Ellore and at Pithapuram, both in "Vengidesha".

The next dynasty of importance is that of Eastern Chalukyas of Vengi who were a branch of the Western Chalukyas of Badami (or Vatapi) in Bijapur district. Pulakesin II of the Western Chalukyas was a great conqueror as his very name which means either tigerhaired or the great lion also indicates. His conquest of Pithapuram, the old capital of Pallavas and Vengi desha proper, then in the hands of Vishnukundies, brought the entire Andhra country under his control in about 615 A.D. As such he appointed his younger brother, Vishnuvardhana surnamed "Kubja" (or "the hunch-back") as the Viceroy of the newly conquered possessions. Kubja Vishnu Vardhana remained loyal but on the death of Pulakesin II he automatically declared himself as an independent sovereign of the Kingdom of Vengi and thereby founded the Eastern Chalukya dynasty which subsequently became great and popular.

The kingdom lasted upto 1070 A.D. when it was absorbed into the Chola dynasty through the inter-marriage between Vimaladitya, the brother of Saktivarma one of the Eastern Chalukya Kings and Kundavai, the daughter of Rajaraja the great, of Chola dynasty. Thus an union was brought about between the Chola and Eastern Chalukya Kings though they were at war with each other quite naturally in the early stages. In the early part of the 8th century, Udayachandra, the General of Pallava King, Narasimhavarman, claims to have subdued Vishnuvardhana III of the Eastern Chalukya dynasty but this reconquest by the ancient owners of the country seems to have been short lived. The Eastern Chalukyas were credited with the excavations of the cave temple at Undavalli and other rock-cut shrines.

At the end of the 10th century the mighty Rajaraja I, who had laid the foundations of the great Chola Empire with its capital at Tanjore, conquered the Eastern Chalukya country and appointed the defeated Saktivarma (999-1011) as king or perhaps a feudatory in Vengi. His brother and successor, Vimaladitya (1011-22), though he had married a Chola princess apparently attempted to throw off his allegiance, for Rajaraja's son Rajendra Chola (1011-44) again invaded the Vengi country and advanced as far as the hill called Mahendragiri in Ganjam where he planted a pillar of victory. Vimaladitya was not deposed, however, and was succeeded by his son, Rajaraja (1022-62), who also married a princess of the Chola royal house. This king fixed his capital at Rajahmundry and it was during his reign that the Mahabharata was translated into Telugu. He is well known to local tradition to this day under the name Rajaraja Narendra who is generally regarded as a national hero of the Andhras and was a patron of the great Telugu poet, Nannaya Bhattu who began the translation of Mahabharata into Telugu. When the Chola power began to decline Vengi fell first under a number of petty chiefs.

The district then at the end of the 13th century came under the political sway of the Ganapathi dynasty of Telangana, popular as Kakatiya Kings. This fell before the Muslims who obtained a brief foothold in the country in 1324, but the invaders were soon driven back.

The first appearance of the Muslims in the Deccan was in 1296 when Alla-ud-din assassinated his own uncle Jalal-ud-din and seized the throne and then made a singularly bold incursion against

the Hindu Raja of Deogiri. He had also long been jealous of the growing power of the Kakatiyas. In 1303 he had unsuccessfully attempted to crush their kingdom. But in 1310 an army was despatched from Delhi against Warangal. Pratapa Rudra summoned the neighbouring Rajas to the assistance of their suzerain but in vain. The Muslim General, Malik Kafir, took the city by assault and Pratapa Rudra was besieged in the citadel, purchased peace by a payment of 300 elephants and 7,000 horses and a promise of an annual tribute. This tribute was paid regularly until 1312 but the confusions in the following year at Delhi emboldened Pratapa Rudra to withhold it which was the reason why the Emperor Ghiyas-ud-din Tughluk on his accession in 1321 lost no time in sending to Warangal an army under the command of his eldest son, Prince Alaf or Jorah Khan. The Hindus fought with desperate valour and drove the Muslims as far back as Deogiri but reinforcements were obtained from Delhi and in 1323 Warangal was taken with great slaughter and the ill fated Pratapa Rudra was carried as captive to Delhi.

In 1344 the capricious cruelty of Prince Alaf Khan, later on Muhammad I, had so disgusted his subjects that Virabhadraya, son of Pratapa Rudra, seized the opportunity to assert his independence at Warangal and, aided by the Raja of Vijayanagar, made a successful stand against the Muslims. This was followed by the revolt in 1347 of the Muslim officers in the Deccan and Virabhadraya made common cause with them against Delhi and sent 15,000 infantry who took part in the great battle near Bidar but failed to regain the lost dominions of his father. However, it enabled Hasan Shah Gangu, to assume the regal style and to found the dynasty at Gulbarga known as the Bahmani Kings of the Deccan. The kings of this dynasty were so called in memory of the Brahmin Gangu in whose service Hasan, the founder of the race, had discovered the hidden treasure and who was afterwards the trusted minister at Delhi Sultan's court. The Bahmani Kingdom extended from Berar in the north to left bank of the Tungabhadra in the south and from Dabal on the west coast to the Telangana tract in the east. The Muslim Kingdom of Gulbarga steadily advanced until in 1425 Warangal was included within its limits.

The captivity of Pratapa Rudra in 1323 left his kingdom without a ruler. The northern provinces probably fell under the sway of the Orissa Rajas. Along side it, in the south the district acknowledged the authority of a line of cultivators who rose

to considerable power and are known to history as the "Reddi Kings". The founder of this family was Donti Aliya Reddi, a cultivator of Hanamkonda who amassed enormous wealth, tradition says by discovering the alchemists' secret of the process of transmuting metals into gold, and migrated to Kondavidu. On the downfall of Pratapa Rudra, the eldest son Pulaya Vema Reddi found himself independent and established himself in the hill fort of Kondavidu, which had doubtless been a stronghold for some centuries previous to this date. He also possessed himself of the fortress of Bellamkonda, Vinukonda and Nagarjunakonda in the Palnad. His brother, Anuvema Reddi, extended his dominions to Rajahmundry on the north, Kanchi on the south and Srisaillam on the west. Kondapalle hill fort is said to have been built in his reign. The Kondavidu Reddis were great patrons of Telugu literature. The poet Srinadha and his brother-in-law Bammera Pothana flourished at this court. The ruins of their fortresses at Kondavidu, Bellamkonda and Kondapalli are still to be seen.

On the extinction of the Reddi dynasty the Gajapathi Kings of Orissa extended their power over the district. The name of Kapilesvara Gajapathi is preserved by the village Kapileswarapuram (now in Gannavaram taluk). He was succeeded by Vidyadhara Gajapathi who built Vidyadharapuram and constructed a reservoir at Kondapalli. His wife Bhavanamma and his two daughters Muthyalamma and Paidamma gave their names to Bhavanipuram, Muthyalammappadu and Paidurupadu in Vijayawada taluk. About 1516, Krishna Deva Raya the great King of Vijayanagar conquered the whole of this country and left inscriptions to announce his victories. The farthest north is the one at Simhachalam, near Vizagapatnam which is given in Telugu. He restored Kondapalli to the Orissa Raja but retained Kondavidu.

About the end of the 15th century the Bahamani Kingdom split up into several smaller states such as Bijapur in A. D. 1489, Ahammadnagar in 1490 and Bidar in 1498. In 1512 the Kingdom of Golconda or Hyderabad was founded by one Sultan Quli Qutub Shah, a Turk of noble family, who was Governor of the Golconda province under the Bahamanis. He took advantage of the distracted state of Kingdom under Mahmud Shah and declared his independence, establishing the Qutub Shahi dynasty which reigned from 1512 to 1687. The Kingdom of Golconda included this district within its limits.

The life story of this adventurer Sultan Quli is marvellous. In 1490 he was an officer of the guard at the palace when an attempt was made on the King's life by some Abyssinians and Deccanis and it was his desperate defence that enabled the young Mohammad Shah to escape with his life. For this service, he was rewarded with the title of Qutbul-Mulk and in 1495 we find him appointed as Governor of Telangana with the personal Jagirs of Warangal and Golconda. To the credit of Sultan Quli it must be recorded that he steadfastly remained loyal to Mahamud Shah, his early patron. The province was governed in the king's name and during his various inter-changing conflicts which occupied the following twenty years Sultan Quli, as far as possible gave his support to the King. It was not until his four rivals had all assumed the regal style, and homage to Mahamud Shah had become nothing but a sentimental survival bereft of all real significance, that Sultan Quli Qutub Shah, in 1512, proclaimed himself king and fixed his capital at Golconda but even after this he continued to send presents and money every year to the descendant of the Bahmani Kings. Bellamkonda was, at this time, held by a Raja named Sitapati who also held Warangal and Khammamet and who seems to have been a vassal of Orissa. It was a dispute with this Raja that first brought Sultan Quli into the Krishna District.

This Sitapati Raja not only possessed these three strongholds, but had in his service a trained body of twelve thousand infantry noted as good marksmen. Confident in the security thus afforded him he laid hands on some of the Qutub Shah's districts which adjoined his territory. This roused the king who marched from Golconda and, leaving aside Warangal and Khammamet, crossed the Krishna river and laid close siege to Bellamkonda. The fortress held out much longer than the King expected, so losing patience, he ordered a general escalade on all sides simultaneously and thus took the place but with heavy loss.

Bellamkonda had hitherto been considered impregnable and Sitapati Raja, who had been well content to see the king waste his time below its walls, no sooner heard of its fall than he marched with his army to cut off the king's retreat. A desperate battle ensued. The Hindu infantry with a well directed fire inflicted severe loss upon their enemies and firmly withstood several charges of the Mahammadan cavalry but at last gave way, leaving the baggages and treasure to Sultan Quli who returned with his booty to Golconda.

Sitapati Raja had fled from the field to his fortress of Khammamet but defeat only incited him to further efforts. He sent messengers to all the neighbouring Rajas, writing to them to form a league against this Sultan Quli Qutub Shah who had already reduced greater part of Telangana and was every day gaining ground so that soon no Hindu chiefs would remain to oppose his overwhelming ambition. The Rajas responded to his call and their united forces assembled at Khammamet. Sultan Quli at once marched to oppose them and as usual gained a victory.

The defeated but not despairing Sitapati fled to Kondapalli where he found Raja Ramachandra, the son of Gajapati Vijayananda Deo, Raja of Orissa. To this prince he represented that Sultan Quli had at length succeeded in expelling him from his country, that all Telangana lay at the mercy of this Muslim and that unless he was checked, the Orissa dominions would be the next to suffer. Gajapati Ramachandra, impressed by the gravity of the crisis, issued orders to all his tributaries to retire to Kondapalli with their forces and soon collected at Kondapalli an enormous army, said to have numbered three hundred thousand infantry, thirty thousand horses and seven hundred elephants. The various Hindu Rajas took an oath to stand by each other, and then they marched to crush Sultan Quli. He prepared to oppose them with only five thousand horses and met them at the river near "Palanchennur" (perhaps the present Penuganchiprolu near Jaggayyapet). Sultan Quli notwithstanding the disparity of numbers determined on delivering the attack and won the battle. Thus the king reduced the fortress of Kondapalli but in 1530 he was obliged to take the field against the Raja of Vijayanagar. Under the command of Siva Raja in which Sultan Quli scored a victory. Sultan Quli Qutub Shah was advanced in years and resolved to spend the remainder of his life in peaceful pursuits. On 4th September, 1543 when he was kneeling at prayer in the mosque at Golconda he was assassinated by order of his third son Prince Jamshid who ascended the throne in his stead. On his death, Prince Ibrahim was crowned. The rise of the Vijayanagar Empire was dramatically rapid. The empire reached the height of its power under Sri Krishna Deva Raya (1509-1530), the greatest of its monarchs. In 1515 King Sri Krishna Deva Raya of Vijayanagar wrested the north of the district from the Gajapati Kings of Orissa. He was a great patron of Sanskrit and Telugu literatures and won the title as 'Andhra Bhoja' and in fact his court was adorned by the famous 'Ashtadiggajas'.

The Hindu Minister Jagadeva Row was too powerful for a subject and when Ibrahim Qutub Shah took steps against him fled to the Vijayanagar Court and employed all his energies in fomenting intrigues to the detriment of his late master. Thus in 1557 the Kings of Bidar and Bijapur attacked him on the west and Rama Raja of Vijayanagar on the south, while two Orissa generals named Sitapati and Vijayaditya moved from Rajahmundry against Ellore and Siddhiraja Rimmappa, Governor of Kondavidu with fifty thousand horses attacked Masulipatnam and Kondapalli fighting several actions near the gardens of Ibrahim Shah and Vijayawada.

The King confined by this coalition of his enemies to the neighbourhood of his capital had recourse to negotiations and induced Rama Raja to be satisfied with the forts of Pangul and Ghunapur. The confederacy then broke up and Ibrahim Qutub Shah so laboured to impress upon the other Muslim Kings the need for union against the Vijayanagar power that seven years later in 1565 they leagued together and crushed the Hindu Raja at the famous battle of Tallikot by razing the city of Vijayanagar to the ground. The empire never recovered from the blow.

Abu-I-Hasan Shah was the last of Qutub Shahi dynasty known as Tanesha. The Muslim and Hindu people tell many stories about his reign. He had two ministers, both Brahmins, named Akkanna and Madanna, who managed his affairs with much ability and left an enduring reputation.

For some reason, they fixed their office at Vijayawada. Popular tradition attributed this preference of Vijayawada to the devotion of the two ministers to the goddess Kanaka Durga and certain it is that the impetus then given to her cult still exists for as late as 1878 a serai at Vijayawada for the accommodation of pilgrims to her shrine, was erected by some merchants of Cocanada. The mendicant *laudator temporis acti* still fondly points out the spot, at the foot of the telegraph hill, where the beneficent ministers distributed food every day to a crowd of applicants of all castes and such was the impression made on the public mind by their rapid transation of business, that the legend is still current that from the caves on that hill runs a subterranean passage to Hyderabad by which the ministers could go to court, obtain the king's orders and return to Vijayawada in one day.

The Emperor Aurangazeb included this district in the province of Golconda, one of the twenty two provinces that formed his enormous Empire, but he was too busily engaged in distant warfare to pay much attention to this part of the country, which remained under Asaf Jah who was appointed as Subedar or Viceroy of the Deccan in 1713 with the title of Nizam-ul-Mulk. The Moghal Empire at this period was on the verge of decline owing to internal dissensions. Asaf Jah took opportunity fairly well so much so that he had little difficulty in asserting his independence against the weak occupants of the Delhi throne although a battle was fought at Shakarkhelda (Fathkhelda) in the Buldana district of Berar in 1724 with Mubariz Khan the Governor of Khandesh, which established him as independent sovereign of the Kingdom. Mubariz Khan was killed in the battle and so he reigned without rival as Subedar of the Deccan. The province of Golconda comprised five Nawabs' charges viz., Arcot, Cuddapah, Kurnool, Rajahmundry and Chicacole (Srikakulam). The Nawab of Rajahmundry ruled the country included in the Krishna district.

The representatives of the different European Nations had been appearing hitherto as traders on the coast, under the patronage of some local potentiate or influential courtier. In 1611 the English founded their settlement at Masulipatnam which continued to be their headquarters until they were finally removed to Madras in 1641. Three years after the founding of the English settlement came the Dutch and in 1669 the French followed. The scene now changed and the Europeans played a bolder part exercising a voice in the political changes of the Deccan. The first who rose superior to the caution of the counting house and took a statesman like view of the possibility of building an European Empire upon the crumbling monarchy

of the Moghuls, were the French officials at Pondicherry and pre-eminent among them M. Dupleix. He was a simple merchant, who in 1741 had risen to be the Governor of Pondicherry.

Upon the death of the old Nizam-ul-Mulk in June 1748, his second son, Nasir Jung, and Mir Jafar, his grandson by one of his daughters, were the claimants for the succession. At this time the English and the French were contending for supremacy in the Deccan and each of the claimants secured the support of these powers; Nasir Jung's cause was supported by the English, while Muzaffar Jung was supported by the French. The latter, however, fell a prey to his uncle, but on the assassination of Mir Jafar, Muzaffar Jung was proclaimed the sovereign. M. Dupleix, the French Governor, became the controller of the Nizam's authority. Muzaffar Jung was killed by some Pathan chiefs and the French then selected Salabat Jung, a brother of Nasir Jung, as ruler. Ghazi-ud-din, the eldest son of Asaf Jah, who it was alleged, had relinquished his claim first, now appeared as a claimant, supported by the Marathas but his sudden death put a stop to further struggles. The English and the French were now contesting for power and influence in the Deccan, but the Victories of Clive in the Carnatic caused the latter to turn their attention to their own possessions which were threatened to leave Salabat Jung to shift for himself. Mir Ali Khan, the fourth son of Asaf Jah, at this juncture obtained the support of the English on the promise of dismissing the French from service. Salabat Jung was dethroned in 1761 and Nizam Ali Khan was proclaimed ruler. The English secured at first the divisions of Masulipatnam, Nizampatnam and part of Kondavidu and later the entire Circars. At first the district was administered by a Chief and a Council at Masulipatnam but in 1794 Collectors, directly responsible to the Board of Revenue, were appointed at Masulipatnam.

PHYSICAL ASPECTS

General: Krishna District was one of the oldest British administered areas of Andhra Pradesh. It was formerly called Masulipatnam district and in 1859 when the then Guntur district was abolished, certain taluks thereof were added to this district which was renamed as Krishna district, after the mighty river Krishna.

Physical characteristics: Krishna lies between 15° 43' and 17° 10' of the northern latitudes and 81° 33' of eastern latitudes. It extends roughly from the north-west to the south-east and extends over an area of 8,727 sq. kms. At the 1981 Census, it recorded a population of 3,048,463. It is bounded on the north by Khammam district, on the east by the Bay of Bengal and on the west Godavari district on the south by the Bay of Bengal and on the west by Guntur and Nalgonda districts. Krishna district can be broadly divided into two natural zones viz., the delta and the uplands. The taluks of Bandar, Divi, Gudivada, Kaikalur and portions of Vijayawada and Gannavaram taluks comprise the delta area forming part of the Krishna delta. The remaining taluks constitute uplands and are known as the Deccan plateau.

The main hill range of the district known as Kondapalle hill runs between Nandigama and Vijayawada taluks with a length of about 24 kms. Other important hills are the Jammalavoidurgam, Mogalrajapuram and Indrakiladri hills. On the Indrakiladri hills at Vijayawada stands the famous temple of Kanakadurga.

Rivers: The chief rivers of the district are the Krishna, the Muniyeru (Muneru), the Tammileru and Budameru. Of these, Krishna is among the greatest and sacred rivers of India. Its total length is about 1,280 kms. and the total area of its catchment basin is about 25,278 sq. kms. It rises at a distance of about 64 kms. from the Arabian Sea in the western ghats just north of hill station of Mahabaleshwar in Maharashtra. After flowing for about 480 kms. in Maharashtra, the river

enters Belgaum district of Karnataka State near Ainapur village. After traversing about 291 kms. of Karnataka territory, it leaves Karnataka near Devarsugur village of Raichur district and enters Andhra Pradesh near the village of Tangadigi in Makthal taluk of Mahbubnagar district. It receives three tributaries, namely the Bhima, the Tungabhadra and the Musi during its course in Andhra Pradesh. At the point of confluence with the Tungabhadra it flows along the northern boundary of Kurnool district, separating at the same time the districts of Guntur and Nalgonda. The river enters the plains of the Coromandel coast after passing through a narrow gorge in the Nallamala hills. Flowing with a single inclination to the south it touches Vijayawada where it attains a width of 1,188 metres. It flows to the east and then to the south with Krishna district on its left and Guntur on its right. Reaching the chain of Eastern Ghats and turning sharply to the south-east and flowing for about 160 kms. it debouches into the Bay of Bengal at Hamsala Divi (Hamsaladevi) and Nachugunta in this district.

The river Muniyeru is the chief tributary of the river Krishna in this district. It flows from the north to the south across Jaggayyapet and Nandigama taluks. It has an anicut at Polampalle in Jaggayyapet taluk and irrigates considerable area through a network of channels and forms additional irrigation source in the district.

The Tammileru, another minor tributary, is a hill stream, flows along the eastern boundary of Tiruvur and Nuzvid taluks and enters the West Godavari district separating it from the Krishna.

River Budameru, another small river, is also a hill stream and flows through Vijayawada, Gannavaram, Gudivada and Kaikalur and finally falls into the Kollair lake. Besides these, the district contains small hill streams viz., Jayanti, Kattaleru, Ippalavagu, Upputeru, Telleru, Ballaleru, Nidimiyeru, etc.

Flora : The district has no worth mentioning forests. However, it contains Reserved Forest areas in several taluks like Nandigama, Vijayawada Tiruvur, Nuzvid, Gannavaram, Bandar and Divi. The flora of the district, have no special characteristics, the plants being the usual cultivation weeds of the coromandel coast. A type of light wood known as 'Ponuku' (*Gyrocarpus Jacquinii*) is found on the Kondapalle hills. This wood is used for the manufacture of the well known Kondapalle toys. Casuarina has been planted by private enterprise on considerable areas of the sandy tract along the coast. The most noticeable trees are *pterocarpus*, *Terminalia*, *Anogeissus* and *Lagustrocinia*.

Fauna : The Krishna district forests are low and open as a result, the fauna is also meagre. At one time tigers and sambar were found on the Medasala Durga-ridge and on the Kondapalle and Jamalavayi hills, but they are very rare now. Panthers, hyaena, jungle cat, fox and bear are the carnivorous mammalian fauna represented. Among the herbivorous animals—deer, spotted deer, sambar and blackbuck are sometimes found in the interior inland forests. Unfavourable natural factors, the invention of sophisticated and modern weapons and other means of hunting have contributed to the near extinction of wild life. The other fauna found in the district are hares, rabbits, squirrels, porcupines, monkeys, langurs, mongoose, bats, etc. Reptiles like cobras, kraits, russels, viper, water snake, rat snake and tree snake are found. The fresh water turtle, land tortoise, freshwater fish like murrel and rohu are the other type of fauna found in the district. The avian fauna is represented by ducks, teals, snipes, pelicans, flamingoes, partridges, doves, quails, king fishers, etc. A migrant grey billed pelican is a protected bird in the Kollair lake bordering Krishna district. The district possesses a large number of Murrah buffaloes and cows with Murra strain.

Climate : The climatic condition of the district is of extreme kind with hot summers and cold winters and may be classified as tropical. The period starting from April to June is the hottest. At Vijayawada the heat is excessive and unbearable owing to radiation, that develops in the crest of Indrakeela mountains. The summer season is followed by the south-west monsoon season which continues till the end of September. October and

November constitute the post monsoon season December to mid-February the season is generally pleasant.

Rainfall : The rainfall of the district is unevenly spread and it is determined by the south-west and the north-east monsoons it receives. Two-thirds of the total annual rainfall is recorded by the south-west monsoon. The monsoon usually breaks in the middle of June and brings good rain upto the middle of October. The average normal rainfall of the district is *958 mm. The months June to October receive 80% of the rainfall. The rainfall along the coast of Masulipatnam and Divi taluks is comparatively heavier than in the uplands.

Soil : The three main types of soils in the district are the alluvial, the black-reger and the red-ferruginous types. The taluks of Kaikalur, Vijayawada and Nandigama are famous for the black-reger soil. The fertile and valuable alluvial soil is available almost in all taluks of the district except Kaikalur taluk. The red - ferruginous soils are available in the uplands while the sandy soil fringes on the sea coast.

Changes in administrative unit and its component parts: The district was not a homogeneous administrative unit in the past as its component parts were under the sway of different dynasties at different periods of time right from the days of the Mauryas to the British and was one of the oldest British administered areas. In 1859 A.D. the then district of Guntur, Machilipatnam and Rajahmundry were merged into two districts namely, Krishna and Godavari. Subsequently the increase of work in Government departments which arose after the construction of the Godavari and the Krishna anicuts and the consequent extension of irrigation system, the need for effective and efficient administration led to the formation of Guntur district in 1904. This reorganisation resulted in the transfer of the seven taluks of Bapatla, Narasaraopet (Narasaraopet), Palnad, Vinukonda, Tenali, Guntur and Sattenapalle to the newly formed Guntur district while Krishna district got the five taluks of Yernagudem, Eluru, Tanuku, Bheemavaram (Bhimavaram) and Narsapur (Narasapur) excluding Nagar Island from Godavari district. No territorial changes took place till 1907 when Divi taluk was constituted by taking Divi island and the Devarakota estate from Bandar taluk with Avanigadda as

* Statistical supplement to Part II of Andhra Pradesh Gazette, Hyderabad, dated 15-1-1981 Monthly and Annual Rainfall table for the year 1978

its headquarters. The changes that took place in the territorial jurisdiction of the taluks in the district in 1910 include the transfer of 61 villages from Nuzvid taluk to Gudivada taluk, formation of a new Deputy Tahsildar's division at Pamarru with 64 villages of Gudivada taluk, creation of Kaikalur taluk with 99 villages taken from Gudivada taluk and formation of Gudivada revenue division comprising the reduced Gudivada taluk and the new Kaikalur taluk with the headquarters at Gudivada. There were no changes in the territorial delimitation of the district till 15th April, 1925 when Krishna district was bifurcated into Krishna and West Godavari districts. After the bifurcation, Krishna district had four revenue divisions of Machilipatnam, Gudivada, Vijayawada and Nuzvid consisting of the nine taluks of Bandar, Divi, Gudivada, Kaikalur, Vijayawada, Nandigama, Tiruvur, Gannavaram and Nuzvid. At the same time, ten villages of Kaikalur taluk were transferred to Eluru taluk and one village to Bheemavaram taluk of West Godavari district. The changes effected subsequently include the abolition

of Pamarru Deputy Tahsildar's division merging it with Gudivada taluk in 1932, transfer of Kolleru village from Kaikalur taluk to Bheemavaram taluk of West Godavari district in 1947, addition of three villages to Tiruvur taluk from Nandigama in 1951, deprivation of Nandigama taluk of 23 villages in Munagala pargana and addition to Huzurnagar taluk of Nalgonda in 1959, transfer of the villages of Guzullanka (Gajullanka) and Potharlanka (Potarlanka) from Divi taluk to Tenali and Repalle taluks of Guntur district respectively in 1959 and constitution of Jaggayyapet independent sub-taluk in 1959 taking 45 villages from Nandigama.

Both at 1961 and 1971 censuses, Krishna district consisted of ten taluks viz; Bandar, Divi, Vijayawada, Nandigama, Jaggayyapet (independent sub-taluk), Gudivada, Kaikalur, Nuzvid, Tiruvur and Gannavaram.

At the 1981 Census there are 18 taluks and 17 towns. These taluks are distributed into 4 revenue divisions as shown below :

STATEMENT SHOWING THE REVENUE DIVISIONS IN KRISHNA DISTRICT, 1981

Sl. No.	Name of Sub-division/ Revenue Division	Name of Taluk	Name of Town (M)/(P)
1	2	3	4
1	Bandar	1 Bandar	1 Machilipatnam (M)

		5 Vuyyur	4 Vuyyur (P)

The taluks in the district have undergone many jurisdictional changes between 1971 and 1981. There has been variation in the total number of villages during the decade. For convenience

the jurisdictional changes in the district during the decade have been presented in the following statement.

- 1 The district "Geographical Area" figures are as supplied by Surveyor General, India
- 2 The total of the area figures of taluks will not tally with the district area figures because the former represents landuse area and are derived from the figures supplied by the State Survey Department
- 3 Villages shown under column 5 do not include the villages under column 8

MAJOR CHARACTERISTICS

Forestry : The extent of forests works out to 7.6 per cent of the total geographical area of the district. The forests in the district meet the needs of the district partially and to a very small extent. Principal products of the forests are: 1) fodder for cattle, 2) fuel for domestic and industrial consumption, 3) timber, 4) thorn and brushwood for fencing, 5) soft wood for packing, 6) bamboo for basketry and 7) tanning barks for the leather industry. The minor forest produce are 1) edible and non-edible fruits, 2) shell-lime, 3) palmyrah and date trees for thatching, 4) thatch grass and broom grasses and 5) tamarind and soapnuts for domestic use and the economic returns thereon are rather limited.

In view of the poor forest potentialities of the district, the large scale plantations of quick growing species like delonix regia, eucalyptus saman, cassia siamea, cassia fistula, pongamia pinnata and dalbergia sissoo were planted to meet local fuel and industrial requirements. There are no research centres or forest schools in this district.

Minerals and mining : The district is not lacking in mineral resources. The important minerals of the district are chromite, diamond, iron ore and limestone.

Chromite : Small deposits of chromite have been mined in the past in Kondapalle hills and the adjoining areas but most of the mines have been closed down due to increased cost of underground mining and other difficulties. In view of the present demand for chromite for Vishakhapatnam Steel Plant, it may be worthwhile to carry out detailed exploration by drilling to assess the grade and reserves of chromite deposits and to evaluate their potential for mining and exploitation.

Diamond : Ancient workings for diamond from the Krishna river gravels below a depth of 5-10 mts. of alluvium are shown to exist along the bank of the Krishna river around Paritala, Ustapalle, Kodavatikallu, Ramannapeta, Suravaram, Kothapeta, Namalipuram, Mogalur and other places. A detailed exploration of the diamondiferous gravels of the Paritala and other areas is

taken up by the Geological Survey of India to assess the potentiality of the deposits for economic extraction by modern methods of mining.

Iron Ore : Most of the iron ore from Jaggayapet area has already been mined and exported and the mining industry was closed down.

Limestone : Large deposits of cement grade and flux grade limestones have been found in Jaggayapet area and these deposits have been reserved for exploitation to supply to the requirements of blast furnace grade limestone for the Vishakhapatnam Steel Plant.

Mica : Small deposits of mica have been worked intermittently by private parties around Tiruvur. The pegmatites are, however, small and have not produced any large quantity of mica so far.

Sulphur : Small quantity of native sulphur occurring in silts upto a depth of 60 cms. are known near Kona about 12 kms. from Machilipatnam. Investigation of the occurrence by the Geological Survey of India earlier has shown that the deposit is only superficial derived from gypsum of sea water by the action of sulphur bacteria.

Electricity and power : The Vijayawada Thermal Station situated at Ibrahimpatnam (Mylavaram Taluk) produces 420 M. W. of power. The cost of this project is Rs. 170 crores. Foundation was laid on 30-10-82 for installation of second thermal station unit with the capacity of 210 M.W.

Land and land use pattern : The land utilisation pattern of the district during 1980-81 is as follows:

Classification of the area	Area (in sq. kms)	Percentage to total Geographical area
(1)	(2)	(3)
1 Forests	664	7.6
2 Barren and cultivable land	623	7.1
3 Land put to non-agricultural uses	1,012	11.6
4 Cultivable waste	490	5.6

	(1)	(2)	(3)
5 Permanent pastures and other grazing lands	219	2.5	
6 Land under miscellaneous tree crops and groves not included in net area sown	69	0.8	
7 Current fallows	433	5.0	
8 Other fallow lands	134	1.5	
9 Net area sown	5,083	58.3	
Total geographical area of the district	8,727	100.0	

Agriculture : Endowed with a rich variety of soils, the district occupies an important place in agriculture. Agriculture is the most important occupation of the people of the district and paddy is the main food crop raised. According to the agricultural census 1980-81, the gross cropped area of the district both kharif and rabi was 18.20 lakhs acres of which the gross irrigated area was 10.71 lakhs acres. Paddy was the main crop with 9.91 lakhs acres followed by jowar with 0.60 lakhs acres, tobacco with 0.36 lakhs acres and chillies with 0.21 lakhs acres. The importance of the area under total pulses cannot be ignored as it was recorded as 3.73 lakhs acres.

Canal irrigation under Prakasam Barrage is the main source of irrigation benefitting an extent of 8.71 lakhs acres during 1980-81 followed by tank irrigation with 1.13 lakhs acres and by tube wells with 0.43 lakhs acres. Wells and other sources of irrigation also contributed their might in getting the area irrigated.

Animal Husbandry : Krishna is one of the richest districts of the State in livestock. Within the district, Divi taluk is the richest both in respect of livestock and poultry followed by Vijayawada. The Integrated Milk Project, Vijayawada, aided by the UNICEF and the Government of India and managed by the State Government is the biggest venture, the district has ever had. The Vijayawada Milk Powder Factory collects daily 1.25 lakhs litres of milk on an average and has got a capacity to produce 10 tonnes of milk powder, 8 tonnes of butter, 6 tonnes of ghee per day. In flush season, the milk collection touches 1.80 lakhs litres per day.

The district is rich in poultry farming. The taluks of Divi, Vijayawada and Gannavaram are leading in this regard. The Intensive Egg and

Poultry Production-cum-Marketing Centre established at Vijayawada in 1965 provides marketing facilities and technical guidance on commercial lines to poultry farmers.

Fishery : The department of fisheries has sponsored several schemes for the development of fishing in Kolleru lake and also for the development of the socio-economic conditions of the fishermen of the lake area. There are 58 fish tanks developed since 1976.

Industry : The Guntupalle Broad gauge Railway wagon workshop which was established at a cost of 17 crores has provided employment to about 5,000 people and repairs about 15 wagons per day.

The R. T. C. Regional Workshop at Vidya-dharapuram repairs old buses and gives them new look.

The Jawahar Autonagar at Patamata, the only one of its kind in the entire country, caters to service needs of automobile industry. It gives employment to 10,000 people.

The people of Krishna district contributed Rs. 2 crores towards the share capital and with that seed money the A. P. Heavy Engineering Machinery Industry is established at Kondapalle village in Mylavaram taluk. At present this unit is producing machinery required for paper, cement, textile and leather industries.

Vijayawada has a big industrial estate which manufactures plastic, stainless steel articles and aluminium works, oil engines, paints, etc.

Transport : The district is well served by roads and railways, having a road length of 5,271 kms. under different agencies (State Highways 296 kms., Major District Roads 1942 kms., and Z. P. and P. S. Roads 3033 kms.) and 187 kms. of railway line covering 37 Railway stations. 900 villages have been connected with the transport facilities of which 659 villages were connected by R. T. C. and 241 villages by private operators. 43 more villages are proposed to be covered by R. T. C. by forming new routes and deviation/extension of routes. Vijayawada city, situated at the head of the Krishna delta, is the chief commercial centre of the district and also an important railway junction, being connected to Delhi, Calcutta, Madras, Hubli, Gudivada and Machilipatnam. It has also an aerodrome at Gannavaram and sea port at Machilipatnam. The development of communications provided good impetus to trade which ultimately led to the prosperity of the district.

PLACES OF INTEREST

Places of Religious, Historical or Archaeological Importance : Places of religious institutions (temples) and mutts and charitable institutions and

institutions of historical or archaeological importance in the district are presented in the following statement for the convenience of the reader.

STATEMENT SHOWING THE MONUMENTS, TEMPLES AND MUTTS IN KRISHNA DISTRICT

Source : Commissioner of Endowments and the Director, Archaeology and Museums, Hyderabad, Andhra Pradesh, 1981

town groups become incomparable from census to census as the boundaries of towns themselves change and the intermediate areas are left out of account. Thus the concept of Standard Urban Area came to be developed for adoption at the 1971 Census. In Andhra Pradesh, 31 units have been selected for demarcating Standard Urban Areas. The necessary data will be compiled for these units also during the next two or three successive censuses in order to study urbanisation around a large nuclei. The Standard Urban Area is identified by the administrative units that it encompasses namely the city, the town and the villages. The boundaries of the Standard Urban Area are the administrative boundaries of the peripheral units.

Urban Agglomeration: Apart from town/city, the 1971 concept of Urban Agglomeration has also been adopted for the 1981 Census. An urban agglomeration constitutes;

- a) A city with continuous outgrowth (the part of outgrowth being out of the statutory limits but falling within the boundaries of adjoining village or villages);
- b) One town with similar outgrowth or two or more adjoining towns with their outgrowths as in (a);
- c) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread. There are only 4 urban agglomerations in the State viz., Vishakhapatnam, Rajahmundry, Vijayawada and Hyderabad.

Census House: A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc., used or recognised as a separate unit. It may be inhabited or vacant.

Household: A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multi-member household. For census purposes each one of these types is regarded as household. Again, there may be household of persons related by blood or household of unrelated persons or even of mixed type. Examples of unrelated households are boarding houses, hostels,

residential hotels, orphanages, rescue houses, ashrams, etc. These are called institutional households.

Scheduled Castes/Scheduled Tribes: Scheduled Castes and Scheduled Tribes are those notified under Article 341 of the constitution according to which the President may with respect to any State or Union Territory and where it is State after consultation with the Governor thereof, by public notification, specify the castes, races or tribes which shall for the purpose of the constitution be deemed to be Scheduled Castes/Tribes in relation to that State or Union Territory, as the case may be.

For the purpose of 1981 Census, the Scheduled Castes and Scheduled Tribes orders, (Amendment) Act, 1976, notified under the Government of India, Ministry of Home Affairs, Notification No. BC. 12016/34/76 SCT-V dated 27-7-1977 was adopted. A copy of the list of Scheduled Castes and Scheduled Tribes in Andhra Pradesh is given under the note on Primary Census Abstract.

Literates: A person who could both read and write any language with understanding was treated as a literate at the 1981 Census. A person who could merely read but could not write or vice versa was not treated as literate. The test for reading was ability to read any simple letter either in print or in manuscript. Children aged 4 years and below were treated as illiterates. The test for education was that a person should have passed a recognised written examination or examinations as proof of educational level attained. The highest examination passed was taken as the level of education.

Worker: The definition of work adopted in 1981 Census is as follows:

“Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.”

In the concept of work, a significant departure is made at the 1981 Census. At the 1971 Census, the main activity of a person was initially enquired according as he spent his time basically as a ‘worker’, engaged in production of goods and services or as a non-worker. For regular work in organised sector, the reference period was the week prior to enumeration, and for seasonal work

such as agriculture, etc., the last one year. Persons engaged atleast for a day in regular (non-seasonal) work during the preceding week were treated as workers. The work of a person who was basically a non-worker, such as a student, or housewife but had made some marginal contribution to work was classified as secondary work and this was recorded separately.

At the 1981 Census it was considered desirable to have as detailed a profile of the working population as possible, maintaining the comparability with 1961 and 1971 data. An attempt was made to find out if a person had done any work at all during the last year. It will thus be seen that the questions on economic approach have been designed to distinguish all the workers, regular or seasonal and non-workers with reference to the last one year prior to the date of enumeration. It was intended to find out how many had worked for 183 days or more i.e., 6 months or more and information regarding the secondary work done by regular workers and also the marginal work done by the non-workers was collected. It was felt in the present context that the usual status of worker was more appropriate when compared with the approach of current status of worker followed earlier. The broad classification of workers is explained under the note on the Primary Census Abstract.

Non-workers : All others who did not do any productive work irrespective of whether they derived some income such as through pension, rents, etc., or did not derive any income were classified under category (X) non-workers.

The non-workers are divided into the following seven categories :

1. Household duties i.e., all those persons basically engaged in unpaid home duties doing no other work ;
2. Students i.e., all full-time students and children attending school ;
3. Retired persons or a rentier i.e., a retired person not employed again or rentier or royalty receiver or any other person of independent means for securing which he does not have to work and who does no other work ;
4. Dependent i.e., an infant or child not attending school, a person permanently disabled from working due to illness or old age or if able bodied who have no other activity and who are not seeking any work either but are purely dependent;
5. Beggars, etc., i.e., beggars, vagrants or an independent woman without indication of source of income and those of unspecified source of subsistence and who are not engaged in any economically productive work ;
6. Institutional inmates i.e., a convict in a jail or an inmate of penal, mental or charitable institution; and
7. Other non-workers — all non-workers who may not come under any of the above six categories.

Marginal Workers : A significant feature of the 1981 Census was the collection of information on marginal workers who had done some work for a period of less than 6 months during the reference year prior to census taking. At the 1971 Census though this concept was not introduced there was a comparable category called non-workers with secondary work.

HISTORY OF DISTRICT CENSUS HANDBOOK

District manuals compiled and published prior to 1905 by the erstwhile composite Madras Government contained not only particulars of items of more or less a permanent character such as physical characteristics, history, religion and ethnography, but also a few statistical tables including those relating to population which became obsolete within a few years of publication. Later, the Madras Government replaced the District manuals by another publication viz., the District Gazetteers consisting of two volumes A and B. Volume A contained descriptive and such general tables as might be necessary to explain the text and volume B contained detailed statistics. It was decided that volume B should be brought out periodically after each Decennial Census so that they contain the latest statistics. Volume A was published for some districts between 1905 and 1927 in the composite Madras State. The publication of volume A was discontinued in 1927. Volume B was published for all the districts of the composite Madras State between 1906 and 1915. The publication of volume B was also stopped after 1931 Census. Due to the II world war, they were not published after the 1941 Census.

Similarly in the erstwhile Hyderabad State also the Gazetteer volumes were brought out for some of the districts.

The scheme of publication of revised District Gazetteers was started in 1958 by the State Governments and in this State, the Gazetteers of all the districts except Hyderabad and Ongole have been published.

The village statements : Apart from the District Manual and Gazetteers the Census data upto village level used to be published in a brochure called 'Village Statement' for each District immediately after every census from 1872 upto 1941.

The village statements presented only the number of occupied houses and population by religion of each village and town. From 1951 Census, the village statements were replaced by the District Census Handbooks.

District Census Handbooks : Sri R. A. Gopala Swamy, I. C. S., the then Registrar General, India and Ex-officio Census Commissioner of India pioneered the idea of compiling the District Census Handbooks for each district and introduced the same in 1951 Census. This was envisaged as part of the plan intended to secure an effective method of preserving the census records prepared for areas below the district level. He proposed that all the District Census Tables and Census Abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume called the 'District Census Handbook' and suggested to the State Governments that the Handbook with or without the addition of other useful information relating to the District should be printed and published at their own cost, in the same manner as the village statistics of the last censuses. This suggestion was accepted by most of the State Governments. Both the composite Madras State and the erstwhile Hyderabad State accepted this suggestion and published the District Census Handbooks for each district at their own cost. In the erstwhile Hyderabad State, the District Census Handbooks were brought out in two parts, Part I containing the administrative statistics and Part II the census tables whereas in composite Madras State, the Handbooks were brought out in one single volume for each district.

Pattern of District Census Handbooks at 1961 : At the 1961 Census, the scope of the District Census Handbooks was enlarged significantly by Sri Ashok Mitra, I.C.S., the then Registrar General, India. District Census Handbooks of 1961 of Andhra Pradesh included four parts. The first part contained narrative description of the physical features, history, social, economic and demographic characteristics, the progress made in each field of administration over the past decades and a brief gazetteer of places. The second part contained the administrative statistics of various departments. The third part contained the 1961 Census tables viz., General population tables, economic tables on Scheduled Castes and Scheduled Tribes. The fourth part consisted of village and town directory which was the most

vital part of the Handbook, giving the villagewise and townwise primary census abstract i. e., particulars of area, households, population, scheduled castes, scheduled tribes, literacy, broad categorisation of working population, etc. Important amenities such as educational, medical, public health and communication facilities available were also indicated against each village and town. Nine such tables containing villagewise particulars such as irrigation sources, important crops raised, value of land, co-operative societies, industrial establishments, police stations, list of skilled craftsmen, etc., were given after village and town directory. A statement on fairs and festivals in the district was given at the end of the volume. All these four parts were bound in a single volume and published at the cost of the State Government.

Pattern at 1971 Census: At the 1971 Census it was decided to enlarge the scope, in view of its usefulness to the official users of the census data and the increased demand among the public. There was some delay in the publication of District Census Hand Books at 1961 Census due to two reasons—1) inadequate printing facilities and 2) delay in the preparation of District Census Handbook which contained four parts. In order to avoid delay in the publication and to make available the more important data to the planners at the earliest, the District Census Handbook was prepared in 3 parts viz., Part A, Part B and Part C as shown below.

Part-A: Village and Town Directory

Part-B: Village and Town Primary Census Abstract

Part-C: Administrative Statistics and Report

Parts A and B were bound in a single volume and were published for all the districts as early as in 1974. However, the printing of Part C was given up.

Pattern at 1981 Census: At the 1981 Census, the format of village directory and statements of town directory are almost similar to those adopted for 1971. The district Census Handbook of 1981 Census comprises of the following two parts brought in single volume, the grouping of which would enhance the value of publication as the data given therein are closely interrelated.

Section I: Village Directory

Section II: Town Directory

Section III: Village and Town-wise Primary Census Abstract

It has been decided not to go in for administrative statistics that is Part-C as it was our experience during 1971 Census that there was inordinate delay in collecting the administrative statistics pertaining to various departments with the result that the publication of this part of District Census Handbook was dropped in Andhra Pradesh State. Other reason for dropping the publication is that administrative statistics, would be available to the data users in the publications of the State by Bureau of Economics and Statistics and the concerned departments.

The formats of village directory and of seven statements on town directory are on the same pattern as canvassed in 1971 Census except for a few additional columns. These additional columns are introduced to throw more insight into the infrastructure of the villages and towns. A feature of 1981 pattern is the restructuring of all the amenities except power supply in the villages and to bring them together, with the corollary that in case any amenity is not available in the village, the distance of the nearest place where the facility is available is presented. Similar method is followed in respect of towns where educational and medical facilities are not available. While presenting the additional columns of Town Directory, the Minimum Needs Programme of the Planning Commission is kept in view. The scope of village directory, town directory statements and primary census abstract along with the codes used under each column are explained hereunder.

Scope of Village Directory: As was done in the past, the village directory has been prepared for all the villages in the State and these are presented taluk-wise in the District Census Handbook, (DCH). For convenience of references, an alphabetical list of villages in respect of each taluk precede the village directory for that taluk. This is done for easy location of any village in the directory since the information is arranged in ascending order of the location codes of the villages.

In the village directory, various amenities and other data have been indicated by codes. These include, area of the village, total population with number of house-holds at 1981 Census, availability of amenities such as educational, medical, drinking water and P & T facilities, communication facilities, type of approach to village and the distance of nearest town, power supply and land use particulars. There are 20 columns in the village directory covering the above aspects.

Columns 1 to 3 relate to the location code number, name and total area of the village. The area given under column 3 is as per the data collected from the State Survey Department. Whenever the figures are not available from the State Survey Department, the figures furnished by the Tahsildars have been adopted. Columns 4A and 4B provide the number of households and population of the village as per 1981 Census. Columns 5 to 11 and 13 list out the basic amenities available in the village such as educational, medical, drinking water, postal, day of the market, communications, approach to village and electricity.

In order to indicate the food habits, information on the staple food of the majority during the major portion of the year was collected under column 14. Wherever it was difficult to clearly determine a particular grain as staple food, the combination of grains mainly used as staple food has been indicated.

Columns 15 to 19 pertain to the land use pattern in the village. The extent of forest area has been given in column 15 while in columns 16 and 17 the extent of cultivated area in the village has been given. The extent of irrigated area together with different irrigational sources has been indicated in column 16. The extent of culturable waste has been shown in column 18 while the area not available for cultivation such as village site, road and railways or underwater, etc., has been indicated under column 19.

The concepts of various types of land use given under each of the columns 15 to 19 are explained below :

1. Forests (Col. 15) : These include all actually forested areas and the lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

2 Cultivated area with break-up irrigated and un-irrigated (Cols. 16 & 17) This includes the land under the following three categories.

(i) *Net area sown :*

The net area sown represents the area sown to crops counting areas sown more than once in the same year, only once.

(ii) *Other fallows :*

This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be either due to poverty of the cultivators or inadequate supply of water or malarial climate or silt ing of canals or rivers or unremunerative nature of farming, etc.

(iii) *Current fallows :*

This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as current fallow.

3. Culturable Waste: This includes the land under the following three categories.

(i) *Permanent pastures and other grazing lands :*

These cover all grazing lands whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.

(ii) *Miscellaneous tree crops , groves not included in the area sown :*

Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use lands under casuarina trees, thatching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'Orchards' are classed under this category.

(iii) *Culturable waste :*

This includes lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.

4. Area not available for cultivation. (Col. 19) : This includes the land under the following two categories.

(i) *Land put to non-agricultural uses:*

All lands occupied by buildings, roads and railways or underwaters, e.g., rivers and canals and other lands put to uses other than agricultural.

(ii) *Barren and uncultivable land :*

This covers all barren and uncultivable land like mountains, etc., i.e., which cannot be brought under cultivation unless at a high cost whether such land is in isolated blocks or within cultivated holdings.

Column 20 is for recording remarks if any on matters like place of religious, historical or archaeological interest and for information on the number of copies of newspapers circulated in the village and the number of motor cycles/scooters, cars/jeeps and tractors available in the village.

All the above particulars are based on the data received from the concerned departments like Education, Medical, Postal and Electricity and also from the Tahsildars concerned.

In the Appendix to the village directory taluk level totals of the amenities have been furnished which gives the picture for the district as a whole. At the 1981 Census, additional items viz., total population and number of households and approach to village have been introduced. Information on population and number of households will be useful as ready reference for analysing the data.

Item on communications has been singled out to spell in terms of availability of the public transport system. This is intended to see whether the village is served by any mode of transport such as bus or rail or waterway. It is against this background that the item on approach to village has been listed separately. This refers to road, etc., leading to the village and is to indicate whether the village is approachable both in fair and foul weather and whether it is inaccessible for all time or only some time in the year. Adult literacy class/centre under item on 'Education' and primary health centre and community health worker under item 'Medical' of village directory are included to indicate statistics on the Minimum Needs Programme of the Planning Commission.

Scope of Town Directory: There are seven statements in the Town Directory which include several particulars relating to the towns arranged as per the alphabetical order of their names. These statements are almost similar to those adopted in 1971 Census except for a few additional columns. The titles of the statements are as follows :

Statement I : Status and growth history

Statement II : Physical aspects and location of towns, 1979

Statement III : Municipal Finance, 1978-79

Statement IV : Civic and other amenities, 1979

Statement IVA : Civic and other amenities in notified slums, 1979

Statement V : Medical, Educational, recreational and cultural facilities, 1979

Statement VI : Trade, Commerce, Industry and Banking, 1979

With a view to facilitate analysis of data, a few new columns have been introduced. The columns-class of town, in every statement is a significant addition. By taking the class of town into consideration the infrastructure of amenities and facilities available in urban areas can best be analysed. The addition of civic administrative status in Statement III and IV and population in Statement IV and V also serve the same purpose. The formats of Town Directory have been devised to suit the Minimum Needs Programme of the Planning Commission. As a sequel to this programme the columns, scheduled castes and scheduled tribes population in Statement IV and adult literacy classes/centres in Statement V are identical.

In case such of the amenities as Fire Fighting Service in Statement IV, the Educational Facility in Statement V are not available in the town, the name of the nearest place if in the same district or the name of the nearest district if in the same State or other State where available, along with its distance from the referent town has been given. This is a new feature of 1981 Census as it is necessary to identify the areas that have no specific facility in the district.

Statement VII i.e., population by Religion and Scheduled castes/Scheduled tribes in Towns of 1971 Census was discontinued at the 1981 Census and a new statement IVA has been introduced to explore the possibility of civic and other amenities available in notified slums in class I and II towns only.

The following seventeen places have been treated as towns in Krishna district at the 1981 Census.

1 Avanigadda	10 Machilipatnam
2 Challapalle	11 Nandigama
3 Gannavaram	12 Nuzvid
4 Gudivada	13 Patamata
5 Gunadala	14 Pedana
6 Jaggayyapet	15 Tiruvur
7 Kaikalur	16 Vijayawada
8 Kankipadu	17 Vuyyur
9 Kondapalle	

Of the above seventeen places, Kondapalle is classified as town for the first time in the 1981 Census; Gudivada, Jaggayyapet, Machilipatnam, Nuzvid and Vijayawada have been enjoying this status since 1901 onwards; Pedana and Vuyyur are classified as towns from 1921; Avanigadda from 1951; Gannavaram, Kaikalur, Nandigama and Tiruvur are treated as towns from 1961 while Challapalle, Kankipadu, Gunadala and Patamata are classified as towns from 1971. Gudivada, Machilipatnam and Vijayawada towns with some of their surrounding villages as detailed below are treated as Standard Urban Areas. Vijayawada with Gunadala and Patamata as constituent units forms Vijayawada Urban Agglomeration.

Standard Urban Area	Constituent Units	
	Urban	Rural
(1)	(2)	(3)

1 Gudivada	1 Gudivada (M)	1 Valivartipadu (R)
		2 Nagavarappadu
		3 Bethavolu (R)
		4 Pedayerukapadu (R)
		5 Mandapadu (R)
		6 Billapadu
		7 Gangadharapuram
		8 Gudivada (R)
2 Machilipatnam	1 Machilipatnam (M)	1 Arisepalle
		2 Sultanagaram (Gollapalem)
		3 Bandar (R)
		4 Machavaram (R)
		5 Kara Agraharam
		6 Chilakalapudi (R)

(1)	(2)	(3)
3 Vijayawada	1 Vijayawada (M)	1 Gollapudi
	Bhavani-puram (OG)	2 Prasadampadu
	2 Patamata (P)	3 Enikapadu
	Kanuru (OG)	4 Yenamalakuduru (all of Krishna District)
	3 Gunadala (P)	5 Undavalli (of Guntur District)
	Ramavarappadu (OG) (all of Krishna District)	
	4 Tadepalle (P) (of Guntur District)	

Of these 17 towns, Machilipatnam and Vijayawada are cities with a population of one lakh and more and have been categorised as class I towns. From the population point of view, Vijayawada with a population of 461,772 persons is the third largest city in the State next to Hyderabad and Vishakhapatnam. Machilipatnam the district headquarters is the second city in the District. Gudivada with a population ranging between 50,000 to 99,999 is the only class II town; Gunadala, Jaggayyapet, Nandigama, Nuzvid, Patamata, Pedana, Tiruvur and Vuyyur are class III towns with a population ranging from 20,000 to 49,999. Six towns viz., Avanigadda, Challapalle, Gannavaram, Kaikalur, Kankipadu and Kondapalle are class IV towns with a population of 10,000 to 19,999. There are no class V and VI towns in this district at the 1981 Census.

No town of 1971 Census is declassified in 1981 Census. On the other hand one new town is added to the list. The urban population of the district is 992,062 out of the total population of 3,048,463 persons constituting 32.54% as against 27.8% in 1971. The increase in proportion of urban is partly due to the addition of one new census town at 1981 Census.

The details given in each of the seven statements of the Town Directory are explained below:

Statement I - Status and Growth History: This statement provides basic information on civic status, population with decadal growth rate from

1901 to 1981, density for 1981 Census and sex ratio from 1961 to 1981 Censuses of each town in columns 2 to 19.

In this as well as in all other Town Directory Statements columns 1 and 2 relate to serial number and class, name and civic administrative status of the town. Class of town has been introduced to facilitate analysis of Town Directory data at the State and all India levels. This is presented according to 1981 population of the core town as per the population size classification.

Population	Class
100,000 and above	I
50,000-99,999	II
20,000-49,999	III
10,000-19,999	IV
5,000-9,999	V
Below 5,000	VI

The civic administrative status of the town (Col. 2) is indicated in brackets by abbreviated letters like M for Municipality, P for panchayat. The location code number (Col. 3) for the town was framed to follow the alphabetical order of the towns in the district. This also facilitates easy location of the town in the map. The name of taluk (Col. 4) where the town is located is given to facilitate analysis of data at State and all India level. Area in sq. kms. (Col. 5) and number of households including houseless households (Col. 6) for each town is included in the Town Directory for the first time in 1981 Census. The population of the town with decadal growth rate from 1901 Census to 1981 is given in Cols. 7 to 15. The percentage growth rate is indicated below the population in brackets. Density for 1981 (Col. 16) is a new column introduced to facilitate analysis of Town Directory data. It has been calculated taking into account the area and the population of 1981 Census of the town and presented per sq. km. Sex ratio from 1961 to 1981 Censuses has been given in Cols. 17 to 19. This is also a new addition to facilitate analysis of Town Directory data. Sex ratio defined here is number of females per 1,000 males.

Out of 17 towns in the district, Jaggayyapet recorded a slight decline in 1931 and steady growth afterwards and the rest of the towns are recording a steady increase of population since 1901. Due to commercial, industrial and transport importance,

Vijayawada city is fast developing. The variation in population in 1981 over 1971 Census is spectacularly high in Gannavaram, Jaggayyapet, Machilipatnam, Nuzvid, Vijayawada City, Gunadala, Patamata and Vuyyur.

Of the seventeen towns in the district, Patamata is having an area of 34.92 sq. kms. and next to it comes Vijayawada city with an area of 33.25 sq. kms.

Vijayawada City the commercial centre, records the highest density of 13.888 persons per sq. km. as against the district average density of 349 persons per sq. km. Machilipatnam, the district headquarters has recorded a density of 5,568 persons per sq. km.

Statement II - Physical aspects and location of Towns 1979 : This statement has 12 columns and depicts physical aspects and location of towns in the district. Under Cols. 3 to 5 in the statement, data relating to rainfall recorded in 1978, the maximum and minimum temperature recorded in 1971 Census were given. If this information was not available for any town, then the particulars available for the nearest town have been given against such town.

The district is well served by rail and road communications. All the seventeen towns are linked up by roads and the buses ply frequently on these roads. Nine out of 17 towns are directly connected by railways. Vijayawada railway station is the biggest junction connecting all the traffic that moves from Delhi, Calcutta, Madras, Hyderabad, Hubli and Machilipatnam with all the voluminous inward and outward passenger and goods traffic. Besides these rail and road facilities, Machilipatnam is a minor sea-port from where iron ore is exported to foreign countries. The river Krishna and its canals are navigable. Due to development of communications, the trading activity was improved leading to the prosperity of the district.

Statement III - Municipal Finance, 1978-79 : The data for inclusion in this statement was obtained from the respective statutory and non-statutory bodies from their budgets and accounts.

The table shows that no town has an excess of expenditure over income except Jaggayyapet. In Jaggayyapet, Kaikalur, Kankipadu, Pedana and Tiruvur towns nearly 20% of the total receipts are

utilised for purposes of public health and conveniences. For public institutions like schools and libraries except three town municipalities, the rest have not spent anything from their incomes.

Statement IV – Civic and other amenities, 1979:

As the title itself reveals, this statement deals with the facilities provided to the people in urban areas of the district.

All the towns have open surface drains except Nuzvid and Pedana which have sylik drains while Challapalle, Gannavaram, Machilipatnam and Vijayawada have sewerage facility also. The facility of either water borne or service latrines is reported in all the towns except Patamata for which the required information could not be obtained. The protected water supply scheme is reported to be available in all the towns. All the seventeen towns have electric supply for domestic as well as industrial purposes.

In Andhra Pradesh, Domestic Service includes supply of energy for lighting, fans and domestic purposes in domestic premises and supply in poultry farming units upto 100 birds. Industrial service means supply for purposes of manufacturing, processing and/or preserving goods for sale, rice mills, oil mills, flour mills, ginning mills, decorticating mills, dal and gram mills, stone crushers, water works and sewerage pumping stations operated by local authorities or Government departments or co-operative house building societies and pumpsets of railways for whatever purpose they may be used. Commercial service includes the supply of energy for lights, fans for non-domestic and commercial purposes. Road lighting service includes supply of energy for lighting on public roads, streets, thorough fares including parks, markets, cart stands, bridges and for traffic signalling. Supply of energy to places of worship like churches, temples, mosques, gurdwaras, educational institutions, student hostels, municipal guest houses, travellers' bungalows, circuit houses of the Government Charitable institutions and recognised service/institutions are included in "Others".

Vijayawada city has the highest number of industrial connections followed by Patamata. In road lighting points also Vijayawada city tops the list and the next largest is Machilipatnam city.

Statement IV A – Civic and other amenities in notified slums, 1979: This is a new statement on

civic and other amenities provided to the people living in notified or recognised slums in class I and II towns. Since the magnitude of slum is greater in respect of class I and II towns, presentation of data on slums is limited to class I and II towns only.

Machilipatnam and Vijayawada are class I towns and Gudivada is the only class II town in this district.

Statement V – Medical, educational, recreational and Cultural facilities in Towns, 1979: In this statement, the magnitude of facilities on medical, educational, recreational and cultural aspects with reference to population of 1981 has been detailed in respect of the various towns in the district. All the towns in the district have hospitals except Pedana where there is only one dispensary with no beds. There are 312 medical institutions which include Government hospitals, dispensaries, nursing homes, maternity and child welfare centres, family planning centres, T. B. clinics together with a total bed strength of 3,173 catering to the medical needs of a total urban population of 992,062 persons. Institutions covering all systems of medicine have been included in the statement.

Vijayawada, Gudivada and Machilipatnam possess medical facilities with 921,518 and 447 beds respectively and this is comparatively better than the other towns in the district. There are 66 persons per bed in Vuyyur, 130 persons in Jaggayyapet and 155 persons in Gudivada.

There are only 20 degree colleges in the district one each at Avanigadda, Gannavaram, Jaggayyapet, Nandigama, Nuzvid, Tiruvur, Gunadala, Patamata and Vuyyur, two in Gudivada, four in Vijayawada City and five in Machilipatnam. There is one post-graduate centre in Nuzvid and one polytechnic college at Vijayawada.

There are 21 junior colleges or higher secondary schools, 77 secondary or high schools, 172 junior secondary or middle schools and 307 primary schools in all towns put together in the district.

A different method has been adopted in presenting number of educational institutions. Composite schools like middle schools with primary classes or secondary schools with middle

classes, have been included in the number of primary and middle schools respectively. For example if in a town there are two primary schools say upto class IV and one high school from class I to X, the number of primary schools in the town is given as three and that of middle school as one and secondary school as one even though physically there are only three educational institutions. Again a composite school having classes upto class XII has been divided as shown below.

Class I to IV. - Primary

Class V to VIII - Middle

Class IX & X - Secondary

Class XI & XII - Higher Secondary

Thus the number of educational institutions physically existing within a town have not been presented but has been presented by the grouping of classes in the institutions and treating each group as a school of its kind. This grouping hold true irrespective of educational institutions they belong to. For instance, the grouping marked as higher secondary i.e. class XI and XII may physically belong to a college but for the purpose of town directory these two classes put together constitute one unit of higher secondary school and the rest of the college has been treated as a college.

There is only one stadium in the district at Vijayawada city. There are 81 cinema halls and 48 public libraries including reading rooms in all the towns in the district. There are 12 community halls in the district, one each at Challapalle, Gannavaram and Patamata, two each in Gudivada, Vijayawada and Vuyyur and three in Machilipatnam.

Statement VI - Trade, Commerce, Industry and Banking, 1979 : Krishna district is predominantly an agricultural tract. Paddy is the main food crop produced in the district. The commercial crops raised in this district are sugarcane, tobacco, chillies and cotton. The hinter land of Vijayawada is called the Blue Nile of Deccan. The minerals available in the district are certain granites and limestone useful for building material, chromite, iron ore, mica and Sulphur.

The district is served by a net work of 137 banks of which there is one each in Kankipadu, Kondapalle and Gunadala, two each in Pedana and Patamata, three each in Gannavaram, Nandigama, Nuzvid, Tiruvur and Vuyyur, four each in Avanigadda, Challapalle, Jaggayyapet and Kaikalur, thirteen in Gudivada, 19 in Machilipatnam and 67 in Vijayawada city. 18 agricultural credit societies and 80 non-agricultural credit societies are serving the total urban population of the district.

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract provides the most important statistics relating to residential houses, households and population and its characteristics down to the village/ward levels in rural/urban areas respectively. The Primary Census Abstract and some other tables till the 1971 Census, were generated by breaking the Individual Slip pads and sorting them manually. As a distinct departure from this procedure, the system of 1981 Census tabulation avoided breaking of the pads and manual sorting of the Individual Slips. The data on Primary Census Abstract was obtained by compilation of data available in Part-II of the Household Schedule, namely Population Record.

Primary Census Abstract of 1981 Census has been presented on the following aspects for each revenue village in respect of rural areas and for each ward/locality/block of a town in urban areas.

1. Location Code number and name of village/town and area.
2. Total number of occupied residential houses and total number of households.
3. Total population and its sex breakup.
4. Population of Scheduled Castes and Scheduled Tribes by sex breakup.
5. Literate persons by sex.
6. Total main workers (I to IX categories) and the breakup of the workers into four broad categories. viz.,

Category I :	Cultivators
Category II :	Agricultural Labourers
Category V (a) :	Household Industry
Category III, IV, V(b) & VI to IX :	Other Workers and also the marginal workers and non-workers by sex

The column 'Marginal Workers' is an addition to the Primary Census Abstract in 1981 Census and was not there in the previous censuses. The marginal worker is defined as a person who has worked in any economic activity for less than 183 days or 6 months in a year. Thus he would be basically classified as a non-worker for the major part of the year.

While presenting the data in the Primary Census Abstract, villages and towns have been arranged in the ascending order of their L.C. Nos. The wards in each town have also been arranged similarly. The uninhabited villages and villages fully included in a town have been indicated accordingly in the rural Primary Census Abstract. In case of villages which are partly included in towns the word 'Rural' has been added in brackets after the name of the village and the particulars relating to the rural portion only have been presented against such villages. An alphabetical list of villages together with their respective L.C. Numbers is given at the beginning of each taluk, which helps the reader to locate the village for which data on the Primary Census Abstract is required.

The basic characteristics of such of those persons who were alive at the sunrise on 1st March, 1981 whether they lived in normal residential houses or huts or in institutions like hospitals, hostels, asylums, boarding houses, hotels, etc. or houseless persons like the wandering tribes, pavement dwellers have been presented in 28 columns of the Primary Census Abstract.

As per the 1981 Census count the population of Krishna district is as follows:

	Persons	Males	Females
Total	3,048,463	1,546,340	1,502,123
Rural	2,056,401	1,041,178	1,015,223
Urban	992,062	505,162	486,900

Col. No. 1 & 2 indicate L.C. No. and name of village/town/ward. Location Code is a device by which every village or town in a taluk of every district in a State is identified by a combination of numbers. Districts in the State are serially numbered in a clockwise direction starting from Srikakulam district and ending with Nalgonda district. In this process Krishna district was allotted L.C. No. 6. Likewise the taluks in each district were given numbers serially in a clockwise order and the villages in each taluk were assigned

serial numbers in serpentine order. Unlike the districts, taluks and villages, the towns in each district were given numbers in alphabetical order. L.C. Nos. of villages were given in arabic numerals while those of towns in roman numerals.

Col. 3: This column shows the area of villages in hectares while the area of town is given in sq. kms. based on the information furnished by the respective State agencies. Where the area of a particular village/town was not available, the fact was noted as N.A. against that village/town. The area of all the villages and towns put together may not be equal to the area of the taluk since the area of the taluk includes area of villages, reserve forests, rivers and hills within the taluk. Rural area of a taluk presented in P.C.A. is obtained by deducting urban area from the total area of the taluk as furnished by the State Survey Department. Similarly, the rural area of a district can be obtained by deducting the total urban area of all the

towns from the total area of the district. The area figures of the districts in the State are those supplied by the Surveyor General of India. Hence the total area of all the taluks in a district put together may not tally with the district area figures.

Col. 4: Number of occupied residential houses in a village/town includes partly residential houses also.

Col. 5: This column includes houseless households and institutional households as well.

Cols. 6 to 8: Total population includes houseless and institutional population with sex break up.

Cols. 9 to 12: Under these columns the population of SCs. and STs. by sex is given. A copy of the list of SCs. and STs. in Andhra Pradesh as notified in Presidential Order No. BC 12016/34/76 SCT V dated 27-7-1977 is appended hereunder.

Cols. 13 & 14: Literate persons are shown under these columns. A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write is not a literate. All children of the age of 4 years or less are treated as illiterate even if the child is going to school and may have picked up reading and writing a few odd words.

Col. 15 to 28: At the 1981 Census, population has been broadly divided into three sections based on main activity viz., workers, marginal workers, non-workers. Their details are shown under these columns.

The definitions and concepts adopted in the economic classification of population at the 1981 Census are given under item Analytical Note.

Work: Work is defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work. A man or a woman who is doing only household duties or making something only for domestic

consumption (and not for sale) is not doing any work in census terminology. The reference period is the one year preceding the date of enumeration. Persons who had worked for 183 days or more, in other words worked 6 months or more are classified under cultivator, agricultural labourer, household industry and other workers according to the nature of work one did. Such of those persons who had worked for less than 183 days or 6 months are shown as marginal workers.

Cultivator: For purposes of census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Agricultural Labourer: A person who works in another person's land for wages in money, kind or share is regarded as agricultural labourer. An agricultural labourer has no right of lease or contract on land on which he/she worked.

Household Industry : Household industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The large proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify or has to be registered under the Indian Factories Act.

Other Workers : All workers who are not cultivators or agricultural labourers or in household industry are other workers. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists, lawyers, barbers, dhobis, etc.

According to the 1981 Census there are 613,506 occupied residential houses and 664,070 households in Krishna district compared to 432,969 residential houses and 531,776 households in 1971 registering an increase of 41.70% in number of residential houses and 24.88% in number of households.

The total number of persons returned at the 1981 Census in Krishna district is 3,048,463 as against 2,493,574 in 1971 Census, thus recording an increase of 22.25% as against the State's growth rate of 23.10%. The proportion of rural and urban population to the total population in the district works out to 67.46% and 32.54% respectively in 1981 census compared to 72.75% and 27.25% in 1971. There are 971 females per every 1,000 males at the 1981 census when compared with State index of 975 females per 1,000 males. The ratio of 964 females per every 1,000 males was recorded at 1971 Census.

Krishna District returned 1,271,423 literates at 1981 census forming 41.71% of the total population of the district compared with 877,051 literates constituting 35.17% at 1971 census. The sex break up of literacy rates during 1981 census is 48.60% among males and 34.61% among females. Rural-Urban break up of literacy rates indicate 33.98% of population are literates in rural while this is 57.72% in urban population. The corresponding rural and urban rates of literacy at 1971 are 28.82% and 52.12% respectively.

In Krishna district there are 1,221,530 workers constituting 40.07% of the total population as against 956,142 workers forming 38.34% in 1971 Census. Among males the workers constituted 57.39% while among females only 22.24% are workers.

BRIEF ANALYSIS OF THE VILLAGE & TOWN DIRECTORY AND PRIMARY CENSUS ABSTRACT DATA

There are 978 villages in the district at the 1981 Census as against 982 at 1971*. Out of the 978 villages, 942 are inhabited while 36 villages are uninhabited. 9 inhabited villages are reported as partly included in different towns of the district. The balance of 23 villages which are fully included in urban areas are not taken into account in arriving the total number of villages in the district.

The following table gives the population of taluks by total/rural/urban with sex break-up. The number of villages and towns in each of the taluks is also indicated in this table.

Vijayawada taluk has more urban population than other taluks, while Gannavaram taluk has the least urban population as per 1981 Census. Six taluks are returned as exclusively rural taluks.

* Decrease is due to the inclusion of five main revenue villages in the proximate urban areas and thereby lost their rural character and one village is returned as newly sprung up during the decade.

Table 2 compares the taluk-wise population between 1971 and 1981 Censuses for total, rural and urban areas. Kaikalur taluk has recorded the highest growth rate of 93.38% during the decade

1971-81, while Movva taluk has recorded the lowest growth rate of 2.17%. Kanchikacherla, Vuyyur and Mandavalli taluks have registered negative growth rates over 1971.

Table 3 shows the total number of inhabited villages in the district classified by population into six broad ranges. In computing the number of villages in a taluk, the villages which are either completely included in an urban unit or returned uninhabited are not taken into account. Maximum number of villages are in the size group of 500-1,999 population and form 49.47% of total villages in this district.

Table 3
DISTRIBUTION OF VILLAGES BY
POPULATION RANGES

Range of population	No. of villages in each range	Percentage of villages in each range
1	2	3

5,000 - 9,999	68	7.22
10,000 +	9	0.96
Total	942	100.00

Table 4 presents the distribution of villages by density into nine ranges and also the percentage of villages in each range. The density figures per sq. km. of each village have been worked out by using the area figures corrected upto two places of decimal. The highest proportion of villages is observed in the density range of 301-500. More than 90% of villages come under density group 101 and above. This district has returned a density of 349 persons per square kilometre as against 195 persons for the State.

Table 4
DISTRIBUTION OF VILLAGES BY DENSITY

Range of density (per sq. km.)	Total No. of villages in each density range	Percentage of villages in each density range

Not known
Total	942	100.00

According to 1981 Census the population of Scheduled Castes in Krishna district is 425,296 accounting for 13.95% of the total population of the district. Scheduled Caste population in this district forms 5.34% of the total Scheduled Caste population in the State. The proportion of Scheduled Caste population to total population in the villages is calculated for all the villages in the district and arranged in seven ranges together with percentage of villages in each range. 64.13% of the villages have Scheduled Caste population in a percentage range above 11. Only 6.15% villages are without Scheduled Caste population.

Table 5

21 - 30	204	21.66
31 and above	160	16.99
Total	942	100.00

The Scheduled Tribes population in the district is only 66,927 persons forming 2.20% of the total population of the district. 65.71% of the total villages in the district have returned the proportion of Scheduled Tribe population less than 5% range, which exclude 26.01% of the total number of villages which have no Scheduled Tribe population. Among the taluks, highest proportion of Scheduled Tribe population is returned in Vijayawada taluk accounting for 15.35% of the total Scheduled Tribe population in the district.

Table 7 provides the total population, Scheduled Caste and Scheduled Tribe population and the percentage of Scheduled Caste and Scheduled Tribe population to total population of the towns in the district.

The total Scheduled Castes population in the urban areas of the district at 1981 Census was 75,963 persons, representing 7.66% of the total urban population. Among the towns, proportions of Scheduled Castes population varies from 5.33% in Patamata to 13.39% in Kondapalle.

The Total Scheduled Tribes population in Urban areas of the district according to 1981 Census was 14,379 persons constituting 1.45% of the total urban population. The proportion of Scheduled Tribes population varies from 0.66% in Patamata to 4.45% in Kondapalle.

Table 7

The following Table 8 gives the literacy rates by population ranges of villages in the district. Krishna district occupies 3rd rank in literacy amongst the districts in Andhra Pradesh State. The proportion of literates of this district constitutes 7.92% of the total Andhra Pradesh literates.

Highest literacy rate of 42.68% is found in villages with 10,000+ population.

Table 8
LITERACY RATES BY POPULATION
RANGES OF VILLAGES

Range of Population	No. of villages in each range	Literacy rate
1	2	3
- 199	25	39.15
200 - 499	72	36.72
500 - 1,999	466	32.73
2,000 - 4,999	302	32.12
5,000 - 9,999	68	37.07
10,000 +	9	42.68
Total	942	33.98

Table 9 shows the literacy rates for the towns in the district as per 1981 Census.

The literates in all the seventeen urban areas in the district were 572,667 persons forming 57.72% of the urban population. Among the towns, the literacy rate varies from 37.11% in Pedana to 62.97% in Gunadala. Machilipatnam, the district headquarters town, ranks second in literacy rate.

Table 10 presents the proportions of literates, workers, non-workers, scheduled castes/scheduled tribes population to the total population, giving break-up by taluk (total/rural/urban) and by sex. There is a highest concentration of scheduled castes and scheduled tribes population in the rural areas than in the urban areas. Krishna district has returned 41.71% of the total population of the district as literates. Vijayawada taluk has returned 55.74% of literates and this is the highest in the district. Nuzvid taluk has returned the largest number of workers 78,189 in its rural areas accounting for 7.82% of the total rural workers of the district and 49.34% of the total rural population of the taluk. Movva taluk stands first among the taluks in the district in the proportion of workers to total population. Pamarru taluk has returned 24.68% of scheduled caste population while the least is in Bantumill taluk with 7.38%. In rural areas of taluks also, these two taluks only have occupied the same position as in total areas of taluks. The percentage of scheduled caste population in urban areas range between 13.39% to 6.05% among the taluks. Vissannapet taluk has recorded highest proportion of scheduled tribe population with 6.63% while Kaikalur has the least proportion of scheduled tribe population with only 0.62%.

Vijayawada taluk tops the list in literacy rates among the total, male and female population as well as in rural and urban areas and in rural areas Gudivada taluk stands next. The literacy rates recorded for Vijayawada taluk are higher than the district and State averages, in the case of both sexes.

Distribution of villages according to the availability of different amenities by taluks is presented in the following table. As seen from the table, education and drinking water facility is available in almost all the villages, while amenities of education, power supply, P & T, approach by pucca road and communications are available in respect of 97.66%, 86.84%, 75.48% and 72.40%

and 70.59% of villages respectively. Medical and market facilities are inadequate and only a meagre proportion of villages have these facilities viz., 34.18% of villages have medical facility 5.10% of villages have market facility.

The table 11 clearly sets out the taluk-wise position of various amenities.

Table 12 gives the proportion of rural population served by the different amenities and also provides this information taluk-wise.

51.85 % of population has only medical facilities while about 10.42% of the population

only has access to market facilities. More than 80% of the population have P & T, approach by pucca road and communication, while more than 90% of the population has access to education, P & T and power supply. All the villages have drinking water facility.

Table 12

PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

Table 13 gives the distribution of villages not having certain amenities arranged by three distance ranges from the places where these are available. There is no single village in this district which does not have drinking water facility. Only 22 villages do not have education facility within the village. Large number of villages do not have market, medical, communication and P & T facilities within the village, but are available at different distance ranges.

Table 13

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Villages not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	-5 kms.	5-10 kms.	10+kms.	Total (Cols.2-4)
1	2	3	4	5
1 Education	21	1	..	22
2 Medical	480	121	19	620
3 Drinking Water

Table 13 (Concl'd.)

	1	2	3	4	5
4 P. & T.		222	9	..	231
5* Market		171	383	234	788
6 Communication		247	17	13	277

* The distance range for the market facility has not been calculated for the villages in Kanchikacherla and Mylavaram taluks as the same is not available. Hence the villages in these two taluks have not been taken into consideration while preparing the inset table-13.

Table 14 illustrates the distribution of villages according to the distance from the nearest town and availability of different amenities.

17% of the villages have town within the range of 5 kms. About 53 percent of the villages have towns within a range of 6-15 kms., while the balance 30% has nearest town located within 16-50 kms.

As given in other tables on amenities, market and medical facilities are far below the levels attained by other amenities.

Table 14

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in Kms.)	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of

Table 15 sets out the amenities available in the villages by distributing the villages according to the population range. The population ranges of less than 500, 500-1,999, 2,000-4,999 and 5,000+ are considered and the villages are distributed in these ranges. About 50% of the villages are in the range of 500-1,999, while the villages less than 500 and those in the range of 2,000-4,999 form 10% and

32% respectively. Only 8% of the villages are in the category of 5,000+. It is interesting to note that as the population range increases, the amenities available in the villages falling in these ranges are also on the increase. As has been observed earlier only the medical and market facilities are not adequate in the villages falling in the ranges other than 5,000+.

Table 15

Table 17 presents the land use pattern giving the proportion of cultivable area to the total area and the irrigated area to the cultivable area. It is seen from the table that 67.46% of the total area is accounted for as cultivable area of the district. Of the total cultivable area of 535,499.74 hectares 330,042.98 hectares forming 61.63% is only tenable. Gudivada taluk has the largest percentage of

cultivable area of 83.92% while the irrigated area is about 97.89% to total cultivable area. Bandar taluk has the least proportion of cultivable area of 55.03 %, but its irrigated area is 83.17% to total cultivable area. Among the taluks in the district Movva taluk has highest percentage of 98.17 irrigated area to total cultivable area of the taluk.

Table 17

Table 20 deals with the finances indicating the receipt and expenditure in towns in the district as on 1979.

Of the seventeen urban areas in the district, the highest per capita receipt is noticed in Vijayawada Municipality (Rs. 108.22) closely followed by Gudivada Municipality (Rs. 108.11). The lowest per capita receipt is recorded in Pedana Panchayat (Rs. 16.01). Receipts through taxes is highest in

Kankipadu Panchayat (Rs. 29.80) while this is lowest in Pedana Panchayat (Rs. 4.71). From all other sources together, the highest per capita receipt is seen in Gudivada Municipality (Rs. 93.18) closely followed by Vijayawada Municipality (Rs. 92.82) and Machilipatnam Municipality (Rs. 68.85) while the lowest per capita receipt is recorded by Gannavaram Panchayat (Rs. 3.49).

Gudivada Municipality stands first among the urban areas of the district with its per capita expenditure of Rs. 99.17 followed by Vijayawada Municipality (Rs. 68.91) and Machilipatnam Municipality (Rs. 68.77). Avanigadda Panchayat ranks last in per capita expenditure of Rs. 12.05. The per capita expenditure of Rs. 17.91 on public health and conveniences in Vijayawada Municipality is the highest among the towns while Gannavaram has the minimum of Rs. 1.13. The highest per capita expenditure of Rs. 23.35 on public institutions like schools and public libraries is recorded by Gudivada Municipality. No expenditure is incurred by Avanigadda, Challapalle, Kankipadu, Nuzvid, Pedana, Tiruvur and Patamata towns for this purpose.

All the civic bodies are running on sound lines with surplus budget except Jaggayyapet Panchayat which is functioning with deficit budget. Vijayawada, Machilipatnam, Avanigadda and Kankipadu are having considerably more per capita receipts than per capita expenditure.

Table 21 provides the data relating to the availability of educational facilities in different categories per 10,000 population. It may perhaps be mentioned here that data presented in the following Table refers generally to the institutions that have been recognised by the State Government and are authorised to teach the students for appea-

ring to the different grades of examination conducted by the concerned Examination boards periodically.

There are 307 primary schools, 172 upper primary schools, 77 high schools and 21 junior colleges in all the urban areas of the district.

From table 22 it can be seen that the number of beds available in urban areas of this district is very low being 3.20 beds per every 1,000 population. Nearly one-third of the total bed strength in the urban areas of the district is concentrated in Vijayawada Urban Agglomeration. The bed-population ratio is highest in Vuyyur Panchayat

where there are 14.98 beds per 1,000 population. Avanigadda, Gudivada, Jaggayyapet, Machilipatnam, Nandigama, Nuzvid, Tiruvur and Gunadala towns have recorded the bed-population ratio more than the district average. The remaining towns have this ratio less than the district index.

Physically Handicapped Persons :

Collection of data on physically handicapped persons is a special feature of 1981 Census. Last time this information was collected in 1931 Census. After independence the data for the physically handicapped persons in our country were collected again for the first time along with the houselisting operations held in May, 1980 and as such, the physically handicapped persons who were available in the census houses were alone covered in the survey. The houseless do not, therefore, find a place in this survey. The physically handicapped persons covered are of three types of disabilities, totally blind, totally crippled and totally dumb. The definition adopted for physically handicapped is as follows:

“The term of totally crippled refers to such persons who have lost their arms or limbs. The loss of arms or legs or all the four limbs refers to loss of both the arms or loss of both legs. It is not necessary that the disabled should have lost both arms and legs. The loss of either of these i.e., both

arms or both legs would be sufficient for classification as totally crippled. Loss of only one arm and/or one leg will not classify a person as totally crippled. The loss here refers to the inability to use and not necessarily physical absence. Thus, a paralytic who has lost the use of both the legs or both the arms, will be totally crippled, though the legs or arms as such are still physically present”.

In case when a person unfortunately suffered from more than one of the disabilities mentioned above, the person was recorded by the greater disability. For example, if a person was both blind and dumb or blind and crippled, etc., blindness was noted for him as blindness is considered as greater disability than either dumbness or being crippled. Similarly, being crippled was considered a greater disability than being dumb. In an extreme case where a person suffered from all the disabilities he was taken under blind since this is certainly the most unfortunate disability.

A statement showing the distribution of physically handicapped persons by taluks in Krishna district is given overleaf.

Physically handicapped form 0.18% of the total population in the district, comprising of 0.21% of rural and 0.10% of urban population. Out of the total 5,288 persons recorded as physically handicapped, i.e., totally blind, totally crippled and totally dumb in the district as many as 4,361 persons forming 82.47% are from rural areas only.

Among the total physically handicapped in the district 29.86% are totally blind, 35.38% are totally crippled and 34.76% are totally dumb. It is revealed that Vijayawada taluk has the highest number of physically handicapped persons accounting for 575 persons. Mandavalli taluk with 128 persons is next.

**VILLAGE AND TOWN DIRECTORY AND
PRIMARY CENSUS ABSTRACT**

SECTION I – Village Directory

SECTION II – Town Directory

SECTION III – Primary Census Abstract

SECTION I

VILLAGE DIRECTORY

Village Directory which provides villagewise information about the amenities and landuse pattern in the villages, consists of 20 columns. The data so collected from the Tahsildars and other officials concerned were scrutinised and presented under certain columns in codes. Such codes will frequently be seen against column numbers 5 to 8, 10, 11, 13, 16 and 20. The following codes have been used against the facilities available in the village.

Educational : (Column No 5)

- P : Primary or Elementary School (Upto Class IV)
- M : Middle School or Junior Secondary (Class from V to VIII)
- H : Matriculation or Secondary School (Class from IX and X)
- JC : Higher Secondary / PUC / Intermediate / Junior College
- C : College
- I : Industrial School
- Tr : Training School
- AC : Adult Literacy Class / Centre
- O : Other Educational Institutions which include Sanskrit Pathasala, Senior Basic School

Medical : (Column No. 6)

- H : Hospital
- MCW : Maternity and Child Welfare Centre or Maternity and Child Health Centre
- MH : Maternity Home
- CWC : Child Welfare Centre
- HC : Health Centre
- PHC : Primary Health Centre
- PHS : Primary Health Sub-Centre
- D : Dispensary
- FPC : Family Planning Centre
- TB : T. B. Clinic
- NH : Nursing Home

- RP : Registered Private Practitioner
- SMP : Subsidised Medical Practitioner
- CHW : Community Health Worker
- O : Others

Drinking Water : (Column No. 7)

- T : Tap
- W : Well
- TK : Tank
- TW : Tube Well
- HP : Hand Pump
- R : River
- F : Fountain
- C : Canal
- L : Lake
- S : Spring
- N : Nallah
- O : Others
- NA : Information not available

Post and Telegraph (Column No. 8)

- PO : Post Office
- TO : Telegraph Office
- PTO : Post and Telegraph Office
- Phone : Telephone Connection

Communications : (Column No. 10)

- BS : Bus
- RS : Railway Station
- NW : Navigable Waterway

Approach to village : (Column No. 11)

- PR : Pucca Road
- KR : Kaecha Road
- NR : Navigable River
- NC : Navigable Canal
- NW : Navigable Waterway
- FP : Foot Path

Power Supply : (Column No. 13)

- ED : Electricity for domestic purpose
- EAG : Electricity for Agriculture
- EO : Electricity for other purposes like industrial, commercial etc.
- EA : Electricity for all purposes listed above

Irrigated by source : (Column No. 16)

- GC : Government Canal
- PC : Private Canal
- W : Well (Without Electricity)
- WE : Well (with Electricity)
- TW : Tube Well (without Electricity)
- TWE : Tube Well (with Electricity)
- TK : Tank
- R : River
- L : Lake
- WF : Water Fall
- O : Others
- T : Total

Remarks, etc. : (Column No. 17)

- N : Copies of the N the village)
- M : Motor Cycles/\$
- C : Cars/Jeeps
- T : Tractors

As an example an entire village, P(2), or D(2), or T(35.21), Tk that the village has two p dispensaries, extent of total village is 35.21 Hectares and gated by water from tanks is

VIJAYAWADA TALUK

ANDHRA PRADESH VIJAYAWADA TALUK KRISHNA DISTRICT

CHANGE IN JURISDICTION
1971-1981

Area transferred to newly
formed Mylavaram taluk from
Vijayawada taluk in 1979

- District Boundary
- Taluk Boundary
- 15 Village Boundary with Location Code Number
- Taluk Headquarters
- Urban Area with Location Code
- RS Railway Broad Gauge
- NH National Highway
- SH State Highway
- Other Road
- River
- Villages with Population Size : 5,000 and above
- 1,000-4,999
- 500-999
- 200-499
- Less than 200
- PO/TO Post Office / Telegraph Office
- PS/RH Police Station / Rest House
- H.S.S./C.T. Higher Secondary School / College / Technical Institution
- H.P./P.H.C. Hospital, Primary Health Centre
- + Dispensary
- △ Hat, Mandies
- Forest Boundary

NOTE:- L.C. Nos. 13, 15, 17, 18, 19 and 20 are fully included in Vijayawada Town
L.C. Nos. 21 and 22 are fully included in Gundala Town
L.C. No. 47 is fully included in Kankipadu Town
L.C. No's 40 and 41 are fully included in Patamata Town

VUYYUR TALUK

ANDHRA PRADESH VUYYUR TALUK KRISHNA DISTRICT

CHANGE IN JURISDICTION 1971-81

Newly formed Vuyyur taluk from Gannavaram taluk in 1979.

- District Boundary
- - - Taluk Boundary
- [15] Village Boundary with Location Code Number
- Taluk Headquarters
- [XVII] Urban Area with Location Code
- RS Railway Broad Gauge
- SH State Highway
- Other Road
- ~ River
- Villages with Population Size : 5,000 and above
- " " 1,000—4,999
- " " 500—999
- " " 200—499
- " " Less than 200
- x Uninhabited Villages
- PO/TO Post Office / Telegraph Office
- PS/RH Police Station / Rest House
- S/ C Higher Secondary School / College
- ⊕ Hospital, Primary Health Centre
- + Dispensary, and Others
- △ Hat, Mandies

Note: L. C. NOS. 18 is partly included in Vuyyur Town.

86° 50' East of Greenwich

SECTION II — Town Directory

SECTION II

TOWN DIRECTORY

Codes used in the seven statements are explained in detail and the expressions for the abbreviations used in Statements are briefly explained herein. Statement I has been compiled in this Office and Statements II to VI by obtaining the data from local authorities having administrative control over the towns.

In the Statement I Col. 2 to denote the civic status of town the codes used are :

Municipal Corporation/ Corporation	M. Corp.
Municipality	M
Cantonment Board/ Cantonment	CB
Notified Area/Notified Area Committee/Notified Committee	NAC
Gram Panchayat/Village Panchayat	P

In Statement IV Col. 6 to differentiate category of road the following abbreviations are used.

Pucca road	PR
Kuccha road	KR

Under Col. 7 to specify the system of sewerage the codes given are :

Sewer	S
Open surface drains	OSD
Box surface drains	BSD
Sylk drains	SD
Cesspool method	CD
Pit System	Pt

In Col. 11 the various prevalent methods of disposal of night soil are given with the following codes.

Head loads	HL
Baskets	B
Wheel barrows	WB
Septic tank latrines	ST
Sewerage	S

Under Cols. 12 & 13, the codes used to state the source of supply and system of storage of protected water supply are as follows:

Overhead tank	OHT
Service reservoir	SR
River infiltration gallery	IG
Borewell pumping system	BWP
Pressure tank	PT
Tubewell Water/ Hand pump	TW
Tap Water	T
Well Water	W
Tank Water	TK

The first five codes relate to the system of storage of water in the town and the remaining four codes represent the different sources of water supply to the inhabitants of a town.

In Statement V under Col. 4 to indicate the type of medical facility available to the citizens, the following codes are used.

Hospital	H
Dispensary	D
Health Centre	HC
Family Planning Centre	FC
T.B. Clinic	TB
Nursing Home	NH
Others	O

If there are more than one institutions of any type, the number of such institutions is noted within brackets eg : D (2); NH (7) etc.

To distinguish the medical institutions as Allopathic or Ayurvedic or Unani or Homoeopathic the following additional codes are used.

Ayurvedic	A
Unani	U
Homoeopathic	Hom.

In case of allopathic no separate code is used. The information on medical facilities is presented horizontally in the same line as illustrated below :

H (A-1,2), D (Hom.-2, U-1)

Here H(A-1, 2), represents one ayurvedic and 2 allopathic hospitals and D (Hom.-2, U-1) represents 2 homoeopathic and 1 unani dispensaries.

The Codes used for the Col. 6 are as follows:

Arts only	A
Science only	S
Arts and Science only	AS
Commerce only	C
Arts and Commerce only	AC
Arts, Science and Commerce	ASC
Law	L

If there are more than one institutions of each type the number is given against each in brackets.

Under Col. 10 the following codes are used to specify the recognised short-hand, typewriting and other vocational training institutions. If there are more than one institution of each type the number is given against each in brackets.

Short-hand	SH
Typewriting	Type

Shorthand & Typewriting
Others

Sh. Type
O

The vocational institutions like Applied Art/ Painting College, Pharmacy College, B.Ed. College, Teacher's Training institutes, Music / Dancing School, Nursing School, etc., are covered under "Others."

Schools upto class IV are treated as Primary or Elementary Schools. These include Nursery Schools, Kinder Garten Schools, Pre-basic Schools, Pre-primary School. School upto Class VIII are treated as Junior Secondary or Middle School. Schools upto Class X is treated as Matriculation or Secondary Schools. Schools or Colleges upto Class XI or XII are considered in the Group of Higher Secondary/Intermediate/Pre-University/ Junior College, etc.

Under Col. 20 the abbreviations given are as follows :

Public library	PL
Reading Room	RR

~~CONFIDENTIAL~~
